Nigosian,1993-09-24 The Zoroastrian Faith is organized around five themes an account of Zoroaster s life and work discussion of the development and spread of Zoroastrianism from its beginnings to the present description of the sacred writings and religious documents of the faith an analysis of the basic Zoroastrian beliefs and their influence on Judaism Christianity and Islam and a description of the prescribed observances In this historical and analytical study S A Nigosian cuts through these problems to present a concise systematic survey of Zoroastrianism This book will intrigue scholars and general readers alike A glossary and bibliography are provided as aids for further study The Teachings of Zoroaster and the Philosophy of the Parsi Religion Shapurji Aspaniarji Kapadia,Zoroaster,2017-07-23 Zoroaster also known as Zarathustra was an ancient Iranian prophet whose teachings developed into Zoroastrianism He inaugurated a movement that eventually became the dominant religion in Ancient Persia He was a native speaker of Old Avestan and lived in the eastern part of the Iranian Plateau but his exact birthplace is uncertain Dating is uncertain as there is no scholarship consensus as on linguistic and socio cultural evidence he is dated around 1000 BCE and earlier but others put him in the 7th and 6th century BCE as a contemporary or near contemporary of Cyrus the Great and Darius I Zoroastrianism was already an old religion when first recorded and it was the official religion of Ancient Persia and its distant subdivisions from the 6th century BCE to the 7th century CE He is credited with the authorship of the Yasna Haptanghaiti as well as the Gathas hymns which are at the liturgical core of Zoroastrian thinking Most of his life is known from the Zoroastrian texts Zoroaster is recorded as the son of Pourusaspa of the Spitaman or Spitamids Avestan spit mean brilliant or white some argue that Spitama was a remote progenitor family and Dugd w while his great grandfather was Ha ataspa All the names appear appropriate of the nomadic tradition as his father s means possessing gray horses with the word aspa meaning horse while his mother s is milkmaid According to the tradition he had four brothers two older and two younger whose name are given in much later Pahlavi work The training for priesthood probably started very early around seven years of age He became a priest probably around the age of fifteen and according to Gathas he gained knowledge from other teachers and personal experience from traveling when left his parents as twenty years old By the age of thirty he experienced a revelation during a spring festival on the river bank he saw a shining Being who revealed himself as Vohu Manah Good Purpose and taught him about Ahura Mazda Wise Spirit and five other radiant figures Zoroaster soon became aware of the existence of two primal Spirits the second being Angra Mainyu Hostile Spirit with opposing concepts of Asha truth and Druj lie Thus he decided to spend his life teaching

people to seek Asha. He received further revelations and saw a vision of the seven Amesha Spenta and his teachings were collected in the Gathas and the Avesta. He taught about free will and opposed the use of the hallucinogenic Haoma plant in rituals, polytheism over ritualising religious ceremonies and animal sacrifices as well as an oppressive class system in Persia which earned him strong opposition among local authorities. Eventually at the age of about forty-two he received the patronage of queen Hutaosa and a ruler named Vishtaspa, an early adherent of Zoroastrianism possibly from Bactria according to the Shahnameh. Zoroaster's teaching about individual judgment, Heaven and Hell, resurrection of the body, Last Judgment and everlasting life for the reunited soul and body among others became borrowings in the Abrahamic religions but they lost the context of the original teaching.

The Spirit of Zoroastrianism Prods Oktor

Skjærvø, 2011-11-01 Zoroastrianism is one of the world's oldest religions though it is not among the best understood. Originating with Iranian tribes living in Central Asia in the second millennium BCE, Zoroastrianism was the official religion of the Iranian empires until Islam superseded it in the seventh century AD. Centered on the worship of Ahura Mazda, the All-knowing Ruler, Zoroastrianism follows the practices and rituals set out by the prophet Zarathustra according to the indigenous tradition. As one of the world's great religions, Zoroastrianism has a heritage rich in texts and cultic practices. The texts are often markedly difficult to translate but in this volume Prods Oktor Skjærvø, professor of ancient Iranian languages and culture at Harvard, provides modern and accurate translations of Zoroastrian texts that have been selected to provide an overview of Zoroastrian beliefs and practices. In a comprehensive introduction to these sacred texts, Skjærvø outlines the history and essence of Zoroastrianism and discusses the major themes of this, the first fully representative selection of Zoroastrian texts to be made available in English for over a century.

The Light of Zarathustra Ethan

Calloway, 2025-04-14 *The Light of Zarathustra: The Spiritual Legacy of Zoroastrianism*. A flame older than empires flickers within you, not metaphorical but real, vital, waiting. This is not a book. It is a crossing. An awakening. A sacred summoning whispered through millennia to those ready to see beyond illusion and remember what has been buried beneath the noise of modern life. Within these pages unfolds a path where the sacred is not hidden behind ritual but revealed in the clarity of ethical living. Here good and evil are not symbolic contrasts but active forces shaping every thought, every choice, every word. You are not a spectator. You are the battlefield. And the weapon is consciousness. This is an invitation to step into a spirituality that does not demand submission but coherence: to live in truth, speak with integrity and act with justice. You will not find easy promises. You will find fire, the fire that warms the soul, that refines perception, that illuminates the cosmic order behind existence itself. This is not ancient mythology. It is the blueprint of moral lucidity for our age of disorientation. The light has not vanished. It waits for those who dare to ignite it from within.
