Keeping Your Kids Out of the Emergency Room Christopher M. Johnson, 2013-10-15 Last year America's 76 million children made 27 million trips to hospital emergency departments one for every three children That represents a lot of fevers coughs sore ears twisted ankles and broken bones plus the wide gamut of other illnesses and injuries children can experience Whether or not an emergency room visit was warranted for each of these visits however is an entirely different story *Keeping Your Kids Out of the Emergency Room* is an essential guide to the most common illnesses injuries and ailments that send kids to the ER and when particular symptoms warrant those trips or not Christopher Johnson a seasoned pediatrician offers a go to resource for all new parents and parents of young children providing solid information on those instances when a trip to the ER is essential when a trip to the doctor will suffice and when a wait and see approach works best He tackles all the most common ailments that cause parents to wonder if they should take their child to the emergency department Since these problems appear as a bundle of symptoms not a diagnosis the book is organized around what parents actually see in front of them It also teaches parents how emergency departments work so the experience is understandable when a trip to the ER is essential With this helpful guide any parent can learn practical things about which pediatric health problems need immediate attention which do not and how to tell the two apart Knowing the differences and understanding those situations that require immediate care and those that don't may help parents avoid the emergency room and still get the best care for their child in the meantime Every new parent or parent of young children will find here a ready introduction to the most common childhood ailments and when they rise to the level of true emergencies Knowing what to do before a child becomes ill or injured will help parents make informed decisions when situations arise *Helping Those Experiencing Loss* Robert J.
