Competitive Life Michael J. Hopkins, 2025-08-08 *Embracing a Competitive Life* offers an autobiographical sketch of the role that competition played both informally and formally in the life of Michael J. Hopkins for six decades. Nearly the first twenty-five years of this competitive life were as a student athlete and coach in his hometown of Beloit, Wisconsin. After accepting a full-time position teaching high school social studies in Darlington, Wisconsin, in 1980, competitive actions intensified. Both on and off the field of play, a sometimes arduous journey had to be endured through a series of personal and team trials and triumphs. Trials included coping with devastating losses in sports and beyond, the lifelong personal battle with social anxiety, and bouts of depression, and being victimized by acts of violence. Triumphs included winning baseball and basketball championships, learning to better serve others with humility, and making strides in becoming more of a player's first coach. The wisdom gained from all these experiences has fueled the desire to share at least one hundred fifty life lessons related to embracing a competitive life. About the Author: Michael J. Hopkins graduated from Beloit Catholic High School as a two-sport athlete (baseball and basketball) and from Beloit College as a three-sport athlete (baseball, basketball, and golf) with a degree in Managerial Economics. He earned his master's in Humanities from California State University, Dominguez Hills. He was a substitute teacher and coach at Beloit Turner High School (1979-1980) and taught social studies at Darlington High School (1980-2019). His coaching experience from 1976 to 2016 includes five sports: baseball, basketball, football, golf, and wrestling, although mainly as a head coach for both boys and girls basketball for twenty-seven years combined. In 2021, he was inducted into the Wisconsin Basketball Coaches Association Hall of Fame. *The Complete Guide to Coaching Girls' Basketball* Sylvia Hatchell, Jeff Thomas, 2006-07-13 Coach Hatchell's book is a must-read for every girls' basketball coach. Numbers Don't Lie Yago Colás, 2020-11 A typical NBA game can yield approximately 2 800 statistical events in thirty two different categories In *Numbers Don't Lie* Yago Colás started with a simple question How did basketball analytics get from counting one stat the final score to counting thousands He discovered that what we call basketball rules equipment fundamental skills techniques tactics strategies has changed dramatically since its invention and today encompasses many different forms of play from backyards and rec leagues to the NBA Finals *Numbers Don't Lie* explores the power of data to tell stories about ourselves and the world around us As advanced statistical

methods and big data technologies transform sports we now have the power to count more things in greater detail than ever before These numbers tell us about the past present and future that shape how basketball is played on the floor decisions are made in front offices and the sport is marketed and consumed But what is the relationship between counting and what counts between quantification and value In *Numbers Don't Lie* Col's offers a three part history of counting in basketball First he recounts how big data basketball emerged in the past twenty years examines its current practices and analyzes how it presents itself to the public Col's then situates big data within the deeper social cultural and conceptual history of counting in basketball and beyond and proposes alternative frameworks of value with which we may take fuller stock of the impact of statistics on the sport Ultimately Col's challenges the putative objectivity of both quantification and academic writing by interweaving through this history a series of personal vignettes of life at the intersection of basketball counting and what counts

The Principles of Ethical Youth Coaching Justin E. Mayer, 2012-02-17 Coaches Would you like to coach your players in an ethical environment where you are developing the character of your players while still being competitive Parents Would you like your son or daughter coached in a safe environment where they will be able to develop life skills that will maximize their performance in areas outside of sports like education The Principles of Ethical Youth Coaching provides the answers The reality of sports is that very few athletes ever make it to the highest level of a given sport Yet the training resources offered to youth coaches focus almost exclusively on strategies to promote winning The techniques advocated by these training programs may be acceptable for professional athletes however they are not acceptable for youth athletes The overwhelming focus on winning causes coaches to miss opportunities to promote character development skills in their players When if at all ethical player development skills are brought up in these programs it is done so in passing and no concrete strategies are offered On the other hand some well intentioned programs seek to eliminate winning from the equation This is not a realistic approach as winning is a fundamental aspect of sports and it must be embraced in the appropriate manner The Principles of Ethical Youth Coaching shows coaches how to develop the character of their players while embracing the competitive nature of sports
