research and evidential contexts within which modern youth justice in the UK and beyond is located. The entries cover a spectrum of theoretical orientations and conceptual perspectives and engage explicitly with the key statutory provisions and policy and practice imperatives within each of the three UK jurisdictions. This book is a key resource for those teaching and studying under graduate and post graduate courses in criminology, criminal justice, sociology, social policy, law, socio-legal studies, community justice, social work, youth and community work, and police studies, together with policy makers, managers and practitioners working within the youth justice sphere, including staff training officers, youth justice officers, social workers, probation officers, police officers, teachers and education workers, health professionals, youth workers, drug and alcohol workers, and juvenile secure estate staff. The Dictionary of Youth Justice is designed to meet the needs of researchers, policy makers, managers, practitioners, and students. It begins with an introductory chapter that maps the key shifts in contemporary national and international youth justice systems, contains over 300 alphabetically arranged entries written by almost 100 experts in the respective fields that explicitly address the core components of youth justice in England and Wales, Northern Ireland, and Scotland. Provides specifically tailored recommended key texts and sources in respect of each entry. It is closely cross-referenced and contains a detailed index to assist readers to make connections between and across entries. Includes a detailed Directory of Agencies that relate to youth justice in each of the three UK jurisdictions. It is compiled and edited by one of the UK's leading authorities in youth justice.

Handbook of Youth and Justice Susan O. White, 2013-11-11. When approached by Plenum to put together a volume of social science research on the topic of youth and justice, I found the interdisciplinary challenge of such a project intriguing. Having spent 2 years as Director of the Law and Social Science Program at the National Science Foundation, I was well aware of the rich diversity of research that could fit within that topic. I also knew that excellent research on youth and justice was coming from different communities of researchers who often were isolated from each other in their respective disciplines as psychologists, sociologists, criminologists, or policy analysts. I saw this project as an opportunity to break down some of this isolation by introducing these researchers and their work to each other and to the broader community of social scientists interested in law and justice. There was another gap or set of gaps to be bridged as well. The juvenile justice system and the criminal justice system differ in significant ways, and the civil justice system, which is a major venue for issues of youth and justice, is yet another separate world. Few researchers are likely to know the whole picture. For example, a focus on juvenile justice often ignores the extent to which civil justice proceedings shape the lives of young people through divorce, custody, adoption, family preservation policies, and other actions, and vice versa.
