Exploring the American Presidency through 50 Historic Treasures Kimberly A. Kenney, 2023-03-15 No person in the world is more recognizable than an American president. These men are larger than life and as the leader of the free world they have the opportunity to shape history in ways that most of us cannot imagine. Some objects such as the Resolute desk, Air Force One, or the presidential seal are symbolic of the position itself, but each president has at least one artifact that largely defines his life and his presidency. For example, George Washington's ill-fitting dentures plagued him for most of his life, affecting the very image of his face that we have all come to recognize. Millions of Americans were comforted by Franklin D. Roosevelt's fireside chats as he spoke into a radio microphone during the Great Depression and World War II. John F. Kennedy memorialized a coconut husk with a message he wrote after his PT boat was destroyed in the Pacific Ocean into a paperweight he kept on his desk in the Oval Office. Bill Clinton appeared on late night television playing the saxophone to appeal to younger voters. *Exploring the American Presidency through 50 Historic Treasures* brings together significant artifacts from the lives of the men who have led our nation through times of great prosperity and terrible tragedy. When we look at our presidents through the lens of the material culture they left behind, it humanizes them and creates relevance to our own lives. This book features full-color images of 50 artifacts that were chosen by the very people who work at presidential sites and historical museums, stewarding the legacies of our presidents.

Presidential Leadership James Taranto, Leonard Leo, 2004-07-30 What makes a president great? Two of America's most prominent institutions, *The Wall Street Journal* and the Federalist Society, with the help of a wide array of eminent scholars, journalists, and political leaders, tackle this question in *Presidential Leadership*, the definitive ranking of our nation's chief executives. Based on a survey conducted by the Federalist Society and the *Journal*, *Presidential Leadership* examines presidential performance in this collection of provocative, enlightening essays written by a distinguished and diverse group of authors. The survey included seventy-eight liberal and conservative scholars, balancing the sample to reflect the political makeup of the U.S. population as a whole. It represents the first national survey in book form that provides a complete ranking of the presidents along with an appendix that explains the methodology in detail and includes a wide range of valuable data. The result is an important, fresh, and engaging book, rating the presidents from Washington to Clinton and including an early assessment of George W. Bush's presidency by *Journal* editorial page editor Paul Gigot. Nearly fifty contributors provide their insights with one essay on each president or on a broader issue of presidential leadership. Among them: Forrest McDonald on Thomas Jefferson, Lynne Cheney on James Madison, Douglas Brinkley on James Polk, Christopher Buckley on James Buchanan, Jay Winik on Abraham Lincoln, John McCain on Theodore Roosevelt, Robert Dallek on Lyndon B. Johnson, Peggy Noonan on John F. Kennedy, Paul Johnson on Bill Clinton. Their compelling essays, packed with fascinating and often surprising insights, analyze the best and worst of our commanders in chief. *Presidential Leadership* is the lively result, at once a valuable reference and a tremendously readable
