Anders Breivik and the Rise of Islamophobia Sindre Bangstad, 2014-06-12. In late July 2011 Norway was struck by the worst terror attacks in its history. In a fertilizer bomb attack on Government Headquarters in Oslo and a one hour long shooting spree at the Labour Party Youth Camp at Utøya seventy seven people mostly teenagers were killed by Anders Behring Breivik. By targeting young future social democratic leaders his actions were meant to lead to the downfall of Europe's purportedly multiculturalist elites thus removing an obstacle to his plans for an ethnic cleansing of Muslims from Europe. In this highly original work leading Norwegian social anthropologist Sindre Bangstad reveals how Breivik's beliefs were not simply the result of a deranged mind but rather they are the result of the political mainstreaming of pernicious racist and Islamophobic discourses. These ideas currently gaining common currency threaten equal rights to dignity citizenship and democratic participation for minorities throughout contemporary Europe. An authoritative account of the Norwegian terror attacks and the neo racist discourse that motivated them.
