Zen And Philosophy An Intellectual Biography Of Nishida Kitaro:

Zen and Philosophy Michiko Yusa, 2002-03-31 This is the definitive work on the first and greatest of Japan's twentieth century philosophers Nishida Kitaro 1870 1945 Interspersed throughout the narrative of Nishida's life and thought is a generous selection of the philosopher's own essays letters and short presentations newly translated into English [Zen & Philosophy](#) Michiko Yusa, 2002 This is a biography of one of the greatest of Japan's 20th century philosophers Nishida Kitaro 1870 1945 Interspersed throughout a narrative of Nishida's life and thought is a selection of the philosopher's own essays letters and short presentations *The Bloomsbury Research Handbook of Contemporary Japanese Philosophy* Michiko Yusa, 2017-09-21 The Bloomsbury Research Handbook of Contemporary Japanese Philosophy examines the current vibrant trends in Japanese philosophical thinking Situating Japanese philosophy within the larger context of global intercultural philosophical discourse and pointing to new topics of research this Handbook covers philosophy of science philosophy of peace philosophy of social justice and healing Introducing not only new readings of well known Japanese philosophers but also work by contemporary Japanese philosophers who are relatively unknown outside Japan it makes a unique contribution by offering an account of Japanese philosophy from within and going beyond an objective description of it in its various facets Also featured is the work of a younger generation of scholars and thinkers who bring in fresh perspectives that will push the field into the future These critical essays by leading philosophers and rising scholars to the past and the present of Japanese philosophy demonstrate ways of doing engaged philosophy in the present globalized age With suggestions for further reading a glossary a timeline and annotated bibliography The Bloomsbury Research Handbook of Contemporary Japanese Philosophy is an ideal research guide to understanding the origin transformation and reception of Japanese philosophy in the 21st century **Nishida Kitaro's Chiasmatic Chorology** John W. M. Krummel, 2015-09-01 Nishida Kitaro 1870 1945 is considered Japan's first and greatest modern philosopher As founder of the Kyoto School he began a rigorous philosophical engagement and dialogue with Western philosophical traditions especially the work of G W F Hegel John W M Krummel explores the Buddhist roots of Nishida's thought and places him in connection with Hegel and other philosophers of the Continental tradition Krummel develops notions of self awareness will being place the environment religion and politics in Nishida's thought and shows how his ethics of humility may best serve us in our complex world *Nishida and Western Philosophy* Robert Wilkinson, 2016-05-13 Nishida Kitaro 1870 1945 is the most important Japanese philosopher of the last century His constant aim in philosophy was to try to articulate Zen in terms drawn from Western philosophical sources yet in the end he found that he could not do so and his thought illustrates a conceptual incommensurability at the deepest level between the main line of the Western tradition and one of the main lines in Eastern thought This book is a work of comparative philosophy Attention is given to the consequences of Nishida's metaphysics in the areas of ethics aesthetics the philosophy of religion and notably the implications of Nishida's example for the question of pluralism This study of Nishida

brings into sharp focus the question of whether faced with a conceptual incommensurability at as deep a level as that manifested by Zen the choice between it and its Western alternative can be wholly rational *Tetsugaku Companion to Phenomenology and Japanese Philosophy* Shigeru TAGUCHI, Andrea ALTOBRANDO, 2020-01-29 This volume addresses the impact of the introduction of phenomenology in Japan and its interaction with Japanese philosophy It is well known that phenomenology was introduced at a very early stage in Japan Furthermore phenomenology still constitutes one of the main currents of thought in Japan However the specific way in which phenomenology has interacted with the indigenous Japanese tradition of thought and Japanese culture has until now not been addressed in great detail This volume fills that gap It discusses in detail the encounter and the interaction between Japanese thought and phenomenological reflection with special regards to the topics of awareness and the self the experience of otherness ethics and metaphysical issues The book shows how phenomenology has served and still serves Japan to re comprehend its own tradition and its specific forms of culture At the same time it offers an example of how different cultures and traditions can be both preserved and developed in their reciprocal action More in general it advances the philosophical debate beyond cultural enclosures and beyond mere scholasticism The phenomenological tradition has always been open to new and alien ideas An encounter with Japanese philosophy can offer a new challenge to actual phenomenological thinking *Eco-Phenomenology: Life, Human Life, Post-Human Life in the Harmony of the Cosmos* William S. Smith, Jadwiga S. Smith, Daniela Verducci, 2018-07-03 This volume presents discussions on a wide range of topics focused on eco phenomenology and the interdisciplinary investigation of contemporary environmental thought Starting out with a Tymieniecka Memorial chapter the book continues with papers on the foundations theories readings and philosophical sources of eco phenomenology In addition it examines issues of phenomenological anthropology ecological perspectives of the human relationship to nature and phenomenology of the living body and the virtual body Furthermore the volume engages in a dialogue with contemporary behavioral sciences on topics such as eco alienation sustainability and the human relationship to the earth in the context of the cosmos The Metaphysics of Kindness Asher Walden, 2015-03-06 Religious world views reserve a central and prominent place for human moral action yet they must also contend with the reality of human moral failings Is it possible to anchor moral knowledge and practice in the framework of a moral universe If so how do you explain why things go wrong Must the religions appeal to faith alone or can they develop a rational framework for their moral visions The Metaphysics of Kindness Comparative Studies in Religious Meta ethics explores the attempted solutions of four pivotal philosophers from very different traditions the Neo Confucian Zhu Xi the German Idealist Arthur Schopenhauer the Mahayana Buddhist Santideva and the progenitor of the Kyoto School Nishida Kitaro Each position is investigated sympathetically and independently yet there is an underlying commonality weaving the different studies together compassion Each philosopher treats compassion not only as one virtue among others but as a kind of meta virtue the one that is in some respect the logical and or psychological basis for all the

other virtues It is also a trait that is both at the heart of human nature and also somehow at the heart of nature itself **On the Boundary** Fred Dallmayr, 2017-08-29 The book records the author's personal and intellectual maturation over a period of nine decades This maturation was never purely self propelled but always occurred in response to teachings and experiences Situated as a being in the world the author's experiences reach from World War II via the Cold War to recent terror wars Intellectually he participated in and reacted to a number of major perspectives from phenomenology existentialism and critical theory to hermeneutics postmodernism and post secularism Exchanges with multiples interlocutors helped to shape his distinctive outlook or profile which privileges self other contacts over the ego dialogue over monologue and dialogical cosmopolitanism over chauvinistic power politics Implicit in this emerging profile is a preference for potentiality over actuality and of relationality over static identity Shunning doctrinal formulas or finished systems the author's life thus is shown to be simply a journey an adventure to what comes an itinerary mentis in Deum **Buddhism** Keith Yandell, Harold Netland, 2009-05-22 In this clear introduction to Buddhism Keith Yandell and Harold Netland lay out the central metaphysical claims of this significant world religion and then offer an honest comparison with Christianity acknowledging some overlap of belief while also noting the clear and significant differences between the two religions

Darwin, Dharma, and the Divine G. Clinton Godart, 2018-03-31 *Darwin Dharma and the Divine* is the first book in English on the history of evolutionary theory in Japan Bringing to life more than a century of ideas G Clinton Godart examines how and why Japanese intellectuals religious thinkers of different faiths philosophers biologists journalists activists and ideologues engaged with evolutionary theory and religion How did Japanese religiously think about evolution What were their main concerns Did they reject evolution on religious grounds or as was more often the case how did they combine evolutionary theory with their religious beliefs Evolutionary theory was controversial and never passively accepted in Japan It took a hundred years of appropriating translating thinking and debating to reconsider the natural world and the relation between nature science and the sacred in light of evolutionary theory Since its introduction in the nineteenth century Japanese intellectuals including Buddhist Shinto Confucian and Christian thinkers in their own ways and often with opposing agendas struggled to formulate a meaningful worldview after Darwin In the decades that followed as the Japanese redefined their relation to nature and built a modern nation state the debates on evolutionary theory intensified and state ideologues grew increasingly hostile toward its principles Throughout the religious reception of evolution was dominated by a long held fear of the idea of nature and society as cold and materialist governed by the mindless struggle for survival This aversion endeavored many religious thinkers philosophers and biologists to find goodness and the divine within nature and evolution It was this drive argues Godart that shaped much of Japan's modern intellectual history and changed Japanese understandings of nature society and the sacred *Darwin Dharma and the Divine* will contribute significantly to two of the most debated topics in the history of evolutionary theory religion and the political legacy of evolution It will therefore appeal

to the broad audience interested in Darwin studies as well as students and scholars of Japanese intellectual history religion and philosophy **Comparative Political Thought** Michael Freeden, Andrew Vincent, 2013 This book examines some of the following issues Is political theory Western centric What can we learn from non Western traditions of political thought How do we compare different strands of national and regional political thought Political thought in China India the Middle East and Latin America Islamic political thought and more Political thought in the wake of post colonialism This is a much needed overview of this key emerging area and will be of interest to all students of political theory thought and philosophy

Holism and the Cultivation of Excellence in Sports and Performance Jesus Ilundain-Agurruza, 2018-02-02 Skillful Striving is a multi methodological and cross cultural examination of how we flourish holistically through performative endeavors e g sports martial and performing arts Relying primarily on sport philosophy value theory phenomenology philosophy of mind pragmatism and East Asian philosophies Japanese and Chinese it espouses thick holism Concerned with an integrative bodymind gradually achieved through performance that aims at excellence the process of self cultivation proper of thick holism relies on an ecologically rich epistemic landscape where skills are coupled to virtues in pragmatic contexts Ultimately this process results in admirable performances and exemplary character Japanese d practices of self cultivation are prominent modes and models of such flourishing A holistic and radically enactive approach that advances contentless capacities in lieu of representations transparently accounts for the kind of action that characterizes such expert performances Importantly these performer centered endeavors unfold within communities that foster the cultivation of our abilities as lifelong quests for human excellence Each chapter can be read independently but still forms part of a continuous argumentative and narrative thread This book was previously published as a special issue of Sport Ethics and Philosophy

who would like to pursue philosophy in a global context and to those who are committed to moving beyond Eurocentrism in academic philosophy

The Cosmic Breath Amos Yong, 2012-05-10 Recent thinking in the interfaith dialogue and in the theology science dialogue have taken a pneumatological turn The Cosmic Breath explores this pneumatological theology as unfolded in the Christian Buddhist dialogue alongside critical interaction with the theology and science conversation As an attempt in comparative and constructive Christian philosophical theology its central thesis is that a pneumatological approach to Buddhist traditions in further dialogue with modern science generates new philosophical resources that invigorate Christian thinking about the natural world and humanity's place in it The result is a transformation of the Buddhist Christian dialogue from insights generated in the theology and science interface and a contribution to the religion and science dialogue from a comparative theological and philosophical perspective

Pneumatology and the Christian-Buddhist Dialogue Amos Yong, 2012-07-26 Recent thinking in Christian theology of religions has taken a pneumatological turn which asks how the doctrine of the Holy Spirit can contribute to the interreligious dialogue and to the emerging discourse of comparative theology Pneumatology and the Christian Buddhist Dialogue Does the Spirit Blow through the Middle Way tests the viability of this approach as applied to the Christian Buddhist dialogue Various Christian and Buddhist traditions are compared and contrasted within a pneumatological framework Is the Holy Spirit to be found along the Buddha's middle way Some Christians say yes while others demur The thesis of this volume is that such a pneumatological perspective opens up possibilities for the deepening and transformation of Christian theology in the religiously plural world of the twenty first century

The Logic of Human Rights Ekaterina Yahyaoui Krivenko, 2023-05-09 Conceptualizing the nature of reality and the way the world functions Ekaterina Yahyaoui Krivenko analyzes the foundations of human rights law in the strict subject object dichotomy Seeking to dismantle this dichotomy using topology a concept developed by Japanese philosopher Nishida Kitaro this topical book formulates ways to operationalize alternative visions of human rights practice

Civilization, Nation and Modernity in East Asia Zhiyu Shi, 2012 This book explores the crisis of cultural identity which has assaulted Asian countries since Western countries began to have a profound impact on Asia in the nineteenth century Confronted by Western civilization and by modernity Asian countries have been compelled to rethink their identity and to consider how they should relate to Western civilization and modernity The result the author argues has been a redefining by Asian countries of their own character as nations and an adaptation of civilization and modernity to their own special conditions Asian nations the author contends have thereby engaged with the West and with modernity but on their own terms occasionally and in various inconsistent ways in which they could assert a sense of difference forcing changes in the Western concept of civilization Drawing on postmodern theory the Kyoto School Confucian and other traditional Asian thought and the actual experiences of Asian countries especially China and Japan the author demonstrates that Asian countries redefining of the concept of civilization in the course of their quest for an appropriate postmodern national identity is every bit as key a part of

the rise of Asia as economic growth or greater international political activity **Exploring the Self, Subjectivity, and Character across Japanese and Translation Texts** Senko K. Maynard, 2022-01-17 From the perspective of philosophical contrastive pragmatics this study investigates our multiple selves as manifested in how we use language Based on analyses of original and translation texts of Japanese and English literary works the Japanese self is proposed as being fundamentally empty and yet richly populated with multiple subjective aspects characters and characteristics Incorporating the concept of emptiness drawn from Japanese philosophical traditions and postmodernism primarily developed in the West selves evidenced in grammar style and variation are investigated applying interpretive resources of linguistic subjectivity character and character speak Expressive gaps found in source and target texts across two languages lead us toward different ontological views and guide us to engage in the rethinking of the concept of self
