The Sexual Revolution in Modern American Literature I. Glicksberg, 2012-12-06 1 The Dialectic of the Sex Motif in Literature Sex is a function of culture in literature today it plays only a small though aggressively righteous part Nature long held in bondage periodically breaks out in revolt but its victory is never complete In every society primitive as well as modern the sexual instinct is for good or evil always subject to some measure of regulation and restraint In literature where the battle between love and sex spirit and flesh is fought out in terms of symbolic action the writers support their cause for or against sexual freedom with varying degrees of evangelical ardor and outspokenness On this issue there is no unanimity for the simple reason that American culture is not unified in its beliefs concerning the nature of man The central conflict between instinctual needs and the claims of the ideal between physical desire and the inner check between Dionysus and Christ goes on all the time Sublimation is the cultural process whereby sexual energy is deflected from its biological source and diverted into spiritually higher and socially more useful channels But sublimation is for most men hard to achieve As civilization grows more complex the individual is exposed to a series of increasingly severe moral strains Pitted against Nature while subject to its laws he must henceforth be governed in his behavior by inner as well as outer controls
