The Soul Genome Science And Reincarnation:

The Soul Genome Paul Von Ward,2008 Much thought provoking evidence suggests that the way you look think react to life events and interact with other people may be predisposed by the experiences of one or more human beings who lived in the past Even if you don t know who they were you may find what appears to be their soulprints in the person you are today and the manner in which you live The Soul Genome Science and Reincarnation explores these ideas focusing on verifiable information that can be tested by objective means The detailed robust case studies presented here not only suggest that reincarnation is more than just a metaphysical concept but also indicate that it is a valid subject of scientific inquiry

Marie-Antoinette's Present Marie-Alix Ravel,2011-11-08 Throughout time there have been people whose deaths changed the world so their lives and messages become eternal in our history books and consciousness Marie Antoinette was born in Austria to a life of unimaginable wealth and unquestioned privileges At the age of 14 she moved to France to marry the dauphin and at 18 became Queen of the most powerful country in Europe When the French Revolution broke out in 1789 everything changed Marie Antoinette had to grow up very fast Despite of all her efforts she lost everything and finished her life in a small cell of the Conciergerie In the confinement of her cell her life is suspended in time Tribulation makes her realize who she is and she understands things are taken from her so that she will not remain earthbound and forgetful of her true immortal state This tremendous transformation that helped her climb the stairs of the guillotine with natural heroism and die as a Queen in 1793 is for the first time ever revealed in Marie Antoinette s Present Marie Antoinette s Present is the never before told true story of a young woman Kiera burdened with repetitive nightmares of an old wheel on a cobblestone road wooden steps a frisson of cold air on her neck and the bitter taste of metal in her mouth Emptiness Silence Death In order to uncover the truth behind her dream and its connection to her present and past relationships Kiera courageously shares her spiritual and emotional journey toward the realization that she was indeed Marie Antoinette the last queen of France Let Marie Antoinette s Present be the key of your universe as it was hers Marie Alix Ravel is a researcher in reincarnation When Kiera Hermine comes to see her she has a passion for this strange case Dreams inexplicable coincidences will push Marie Alix to conduct a thorough investigation guided by a strong natural intuition and years of experience This story is based on real facts and either you believe in reincarnation or not Marie Antoinette s Present is a moving story in which the present meets the past so amazingly A Gateway to Spirituality Wing Commander Santosh Sharma,2017-10-27 The first book in the world which talks about de hypnosis and explains spiritual dimensions of hypnosis in an eastern way Hypnosis is spiritual in the sense that in hypnosis illusion is created to destroy illusion It applies the principle of similia similibus curentur let like be cured by like In this book there are two parts The first part of this book will wake you up from maya and de hypnotize you by creating awareness using traditional gyana The second part of the book teaches some time tested verified and effective modern hypnosis methods to de hypnotize and integrate you It is said to take

out a nail use another nail Hypnosis uses illusion to remove illusions and delusions of your perceptions about yourself your guilt fears phobias anxiety and hatred etc Sounds strange though when I tell you to use hypnosis for de hypnosis However that is the quickest way to get out of mental illusions and delusions *THOUGHT FORMS AND HALLUCINATIONS*

Chidambaram Ramesh, 2014-02-27 In recent times the subject of consciousness has emerged as an important paradigm of scientific investigation and research despite most of its concerns having roots in philosophy religion and occultism What is consciousness What is the substance of consciousness Is it material or immaterial mortal or immortal How is it connected with a body Has it a particular seat in any particular body as the brain does Is consciousness synonymous with mind Is it eternal and non local These questions have interested thinkers for many centuries It is the object of this book to demonstrate through a series of cases reported across the world at various times relating to many curious mind related phenomena like the creation of mental entities the imprints of indelible images on the human body stigmata birthmarks and bodily deformities corresponding to the injuries sustained in the previous life thought photography materialization experiments etc that Human mind can bring into being thought forms and can exteriorize them giving them some objective consistency There can be continuity of thoughts even after the destruction of the physical brain These psychic entities are sometimes given a kind of autonomy so that they may act and seemingly think without the consent or even knowledge of their creator The book does not stop with the mere reproduction of recorded cases and just messaging the dimension of the problem but extends over to solve it by suggesting a bio holographic theory of body and mind The book is alike novel fun filled profound and useful thus affording the blend of interest and instruction which cannot fail to render it interesting to the inquisitive and candid mind **We've Never Been Alone** Paul Von Ward, 2011-09-01 Whether you call them gods angels ETs or aliens sufficient

proof now exists that beings more advanced than humans have influenced our history Evidence suggests that these outsiders shaped our religions genes technology and cultures In fact they may have provided the impetus for modern civilization Paul Von Ward investigates why modern science and religion refuse to address the possibility that humans interact with Advanced Beings ABs He reviews sacred texts myths and legends from the Old Testament Hebrew texts and the Vedas to the Greek myths Sumerian tablets and other historical sources to make the link between religions their gods and alien intervention He shows how this history of AB intervention has been suppressed and challenges readers to reexamine the origins of notions like divine revelation to find common ground among the world's cultures and religions Previously published as God Genes and Consciousness **By Love Reclaimed** Adrian Finkelstein, Valerie Franich, 2012-07 In July 1932 MGM producer and
