The Sower And The Seed Reflections On The Development Of Consciousness:

The Sower and the Seed Alan Mulhern, 2018-03-21 The Sower and the Seed explores the origins of consciousness from a mytho psychological angle The concept of immanence a vast intelligence within the evolutionary process provides the underlying philosophy of the book presented as a creative destructive spirit that manifests higher orders of complexity such as life intelligence self consciousness and then dissolves them The book explores the human psyche as immersed in nature and the realm of the Great Mother showing how the themes of fertility and power applicable to all life forms saturate the history of humanity most evidently in the period stretching from 40 000 years ago up to modern civilizations The book examines in particular the transition to patriarchal religious consciousness in which a violent separation from the world of nature took place

The Sower and the Seed Alan Mulhern (Jungian psychotherapist), 2018 **Kathleen Raine** Jenny Messenger, 2025-06-12 For the poet and scholar Kathleen Raine ancient texts were not obsolete but vital handbooks for reading reality Drawing on Graeco Roman philosophy alongside modernist receptions of the ancient world this book is the first study of her engagement with classical antiquity Raine s interpretation of the classical past not only informed her literary work but also gave her a compelling perspective which located consciousness as the basis of reality This way of seeing the world traceable from antiquity to the present day via the perennial philosophy claimed little distinction between inner self and outer world and stressed the interconnectedness of all beings Jenny Messenger explores Raine s use of Graeco Roman philosophy as source texts for understanding consciousness articulated throughout her poetry scholarship and autobiographical writing Raine believed there were multiple planes of consciousness across which symbolic poetry and prose could operate to reach the highest levels of being The creative arts were even capable of shaping consciousness expanding or shrinking the scope of what could be experienced Though she won acclaim during her lifetime her literary reputation has been overshadowed by her relationship with writer and naturalist Gavin Maxwell This book moves the focus back to Raine s work bringing her complex classicism to a wider audience

Christ Consciousness Danielle Van Dijk, 2010-04 We live in a world characterized by intolerance war environmental degradation and economic collapse By contrast is it possible to build a society in which tolerance love and peace are the abiding principles In this positive and inspiring book van Dijk shows how beginning with our personal development we can contribute to such a new and transformed world She describes how we can develop a universal spiritual consciousness what she calls Christ Consciousness The author emphasizes that the Christian mysteries took place on the physical plane distinguishing with great clarity between Jesus as a human being the incarnation of Christ on Earth and the Cosmic Christ She builds bridges between the spiritual research of Rudolf Steiner the Nag Hammadi writings and the gospels of Mary Magdalene and Judas culminating in a comprehensive and wide ranging picture of the Christ By gaining insight into the nature of Christ s being and undertaking practical exercises described here each of us can achieve the new Christ Consciousness In ancient times selected individuals underwent rites of initiation in secret

mystery schools Any student who made public the knowledge obtained there was put to death In our time however the spiritual mysteries have become open and available to all Initiation van Dijk tells us involves walking the inner path to all embracing love which is known in Gnostic and esoteric lore as Christ the highest divine Being leading to sublime cosmic orientated consciousness that comes into existence when the higher self exists wholly within the individual human being

The Spiritual Consciousness of Carmen Martin Gaité Anne-Marie Storrs, 2023 An exploration of Spanish writer Carmen Mart n Gaité s religious outlook through the inner journeys of five female characters For Mart n Gaité a truly religious or spiritual perspective requires conscious attention to the products of the unconscious dreams images memories premonitions followed by reflection and action as well as a similar attentiveness and responsiveness to external events both large and small This reconnection of the supernatural and day to day worlds also involves descent to the unconscious the way to wholeness as depicted in so many myths and fairy tales including those which Mart n Gaité used to retell or enhance the works analysed in this book *Sleeping Beauty The Little Mermaid Amor and Psyche Demeter and Persephone and the Descent of the Goddess Inanna* Looking at the extent to which these female characters attend to reflect on and respond to their dreams images memories and events the analysis suggests that Mart n Gaité uses her stories to try to communicate both the road to her own enlightenment and warnings about paths that lead away from this

Metalinguage and Identity David Evans, Manel Herat, 2025-09-18 How does language attain to rear view reflection and then timeless analysis How does language garner its conceptualisation in order to do this This book is an exploration of the process in which everyday narrative language can become reflective and then analytical Narrative language is viewed as a way of becoming within the flow of time and therefore life Evans and Herat show that there are levels in language that correspond with conceptual structures existing in the mind and in wider society which shape the formation of a metalanguage They explore how metaphor is an important creative tool in raising language to a more conceptual level in the constitution of a metalanguage The book considers the development of different strands of metalanguage for example mind based logic physically based metaphor and universal grammar to provide a fuller account of language and identity by challenging sweeping existential accounts of language By studying the formation and application of metalanguage the authors show it can help develop a more questioning dialogic critical pedagogy in education to accustom students to develop critical awareness

Mind Leap: Intimate Changes and Communication Between Worlds David W. Letts, 2009-03-24 Fully revised with Reader s Guide Self Exploration Questions chapter reviews and expanded Moita material Reading Mind Leap was one of the most delightful experiences of my summer First I found it an absolutely intriguing story of personal challenge and human relationships But second and most important I found it highly inspiring There are many times in my own spiritual journey that I wonder whether it is all worth the effort whether there really is a greater reality This book is a powerful incentive to keep going an inspiration and a source of hope Joyce E Ansell literary editor How can we learn to live wholly with deep intuition in this

world Where can it lead for each of us in this transformative era We hear follow a path with heart listen to your dreams open to spirit But rare is the book that actually takes us far into that experience Mind Leap does so by telling a challenging liberating true story from the consciousness revolution and inviting readers to participate by reviewing their own life events and perceptions A novelist couldn't create spiritual explorers more opposite than Kelly and David growing up the psychic daughter of an abusive alcoholic and mystic son of an activist minister But as young adults with other partners dreams and intuitions pointed each other out hinting of the natural bridge they would form together As they were then tested in a crucible of intersecting lives Moita began to speak through Kelly initiating an experiment in communication between worlds Her over 200 interactive sessions shared with hundreds of participants have been compared to the Seth material Mind Leap reveals the hidden workings of spirit that connect us to people and situations we need to grow in strength freedom and love The narrative unfolds on many levels giving a unique inside view of the channeling phenomenon even as the prophetic messages turn from individuals to the crisis transformation of our Earth We see you all the time are near you yet very rarely can touch for you do not see us For you we are merely a whisper in the trees We have watched for a great many years and now there is a drawing together of worlds a time when the two worlds may touch and not be destroyed by each other when they may integrate and understand The coming together of our worlds will not change just yours but mine Life will never be the same again Moita

studying revolutionary culture By examining the margins of the proletarian cultural movement Perry effectively redefines its center as he closely reads and historicizes proletarian children s culture avant garde wall fiction and a literature that bears witness to Japan s fraught relationship with its Korean colony Along the way he shows how proletarian culture opened up new critical spaces in the intersections of class popular culture childhood gender and ethnicity **Mantras** Swami Sivananda Radha,2005 *Progress and Poverty* Henry George,1911 **Every Saturday** ,1871 **Contemporary Issues in Nigerian Art** ,2006 *War Department Education Manual* ,1936 *The Expository Times* ,1934
