administration Dentistry Medical education Geriatrics Gynecology Healthcare products Hospital administration Internal medicine Mental health Nursing Optometry Pediatrics Pharmaceuticals Public health Research Social work Speech pathology Substance abuse Surgery     *Subject Guide to Books in Print* ,1984     *Who's who in American Nursing* ,1986     *The British National Bibliography* Arthur James Wells,1972     *Paperbound Books in Print* ,1984     **Handbook of Clinical Geropsychology** Michel Hersen,Vincent B. Van Hasselt,2013-11-22 Over the last two decades the number of persons over 65 has increased by 65% Handbook of Clinical Geropsychology focuses attention on how the contributions of clinical psychology address the problems faced by this enormous population In the first part chapters cover a historical perspective clinical geropsychology and U S federal policy psychodynamic issues and other key topics Part II details assessment and treatment for a wide range of disorders affecting the elderly Part III considers such special issues as family caregiving minority issues physical activity and elder abuse and neglect     *Guide to the Psychiatry of Old Age* David Ames,Damien Gallagher,Samantha Loi,Tom Russ,2022-04-21 Preceded by *Guide to the psychiatry of old age* David Ames et al 2010     **What Matters: Understanding Ageing Knowing Your Options & Creating the Best Quality of Life** Melissa Levi,2022     *The Oxford Handbook of Clinical Geropsychology* Nancy A. Pachana,Ken Laidlaw,2014-11-07 Throughout the world the population of older adults continues to grow The rise in geriatric populations has seen an increase in research on clinical diagnostic assessment and treatment issues aimed at this population Clinical geropsychologists have increased their interest both in providing mental health services as well as developing approaches to improve quality of life for all older adults The Oxford Handbook of Clinical Geropsychology is a landmark publication in this field providing broad and authoritative coverage of the research and practice issues in clinical geropsychology today as well as innovations expanding the field s horizons Comprising chapters from the foremost scholars in clinical geropsychology from around the world the handbook captures the global proliferation of activity in this field In addition to core sections on topics such as sources of psychological distress assessment diagnosis and intervention the handbook includes valuable chapters devoted to methodological issues such as longitudinal studies and meta analyses in the field as well as new and emerging issues such as technological innovations and social media use in older populations Each chapter offers a review of the most pertinent international literature outlining current issues as well as important cultural implications and key practice issues where relevant and identifying possibilities for future research and policy applications The book is essential to all psychology researchers practitioners educators and students with an interest in the mental health of older adults In addition health professionals including psychiatrists social workers mental health nurses and trainee geriatric mental health workers will find this a invaluable resource Older adults comprise a growing percentage of the population worldwide Clinical psychologists with an interest in older populations have increased the amount of research and applied knowledge about effectively improving mental health later in life and this book captures that information on an international level The book addresses how to diagnose assess and treat mental illness in

older persons as well as ways to improve quality of life in all older persons It has a great breadth of coverage of the area including chapters spanning how research is conducted to how new technologies such as virtual reality and social media are used with older people to improve mental health The book would appeal to all psychology researchers practitioners educators and students with an interest in the mental health of older adults It would also appeal to other health professionals including psychiatrists social workers and mental health nurses who work with older people It is a valuable resource for trainee geriatric mental health workers because it highlights key readings and important practice implications in the field

*Guide to the Psychiatry of Old Age* David Ames, Edmond Chiu, James Lindesay, Kenneth I. Shulman, 2010-07-01 With rapid ageing of the world's population psychiatry of old age has become a crucial discipline This succinct guide to the scope and practice of the psychiatry of old age provides an up to date summary of existing knowledge best practice and future challenges for the specialty from a global perspective From definitions and demography to epidemiology aetiology and principles of assessment diagnosis and management each chapter is sharp clear and practical enhanced by tables and diagrams for quick assimilation and reference on the ward or in the clinic As well as the main psychiatric conditions encountered in old age coverage also includes legal and ethical issues and the neglected topic of alcohol and drug abuse in the elderly Written by leading clinicians teachers and researchers and offering a much needed international focus this compact guide is essential reading for practising psychiatrists and geriatricians as well as trainees nurses and medical students

Handbook of Clinical Psychology of Ageing Robert T. Woods, 1996-07-17 This handbook focuses on the key areas in the psychology of ageing Problems associated with later life development and change Emotional problems and depression associated with loss of physical health and with losses and changes in the areas of social relationship and personal identity The important clinical context of service delivery including community care family care giving and institutional aspects A broad range of therapeutic orientations including cognitive behavioural psychodynamic and family therapy approaches It is hard to do justice to the breadth of material in this book I have found the reading of it both stimulating and enlightening despite believing that I was familiar with most of the topics and have no doubt that I will be using it for reaching and reference purposes into the next millennium if there is one book a Clinical Psychologist working with older people needs this is it Steve Boddington International Journal of Social Psychiatry

**Handbook of Assessment in Clinical Gerontology** Peter A. Lichtenberg, 2010-08-20 New trends in mental healthcare practice and a rapid increase in the aged population are causing an explosion in the fields of clinical gerontology and geropsychology today This comprehensive second edition handbook offers clinicians and graduate students clear guidelines and reliable tools for assessing general mental health cognitive functioning functional age psychosocial health comorbidity behavior deficits and more Psychopathology behavioral disorders changes in cognition and changes in everyday functioning are addressed in full and a wide range of conditions and disorders common to this patient population are covered Each chapter provides an empirical review of assessment

instruments assessment scales in their totality a review of how these instruments are used with and adapted for different cultural groups illustration of assessments through case studies and information on how to utilize ongoing assessment in treatment and or treatment planning This combination of elements will make the volume the definitive assessment source for clinicians working with elderly patients The most comprehensive source of up to date data on gerontological assessment with review articles covering psychopathology behavioral disorders changes in cognition and changes in everyday functioning Consolidates broadly distributed literature into single source saving researchers and clinicians time in obtaining and translating information and improving the level of further research and care they can provide Chapters directly address the range of conditions and disorders most common for this patient population i e driving ability mental competency sleep nutrition sexual functioning demntias elder abuse depression anxiety disorders etc Fully informs readers regarding conditions most commonly encountered in real world treatment of an elderly patient population Each chapter cites case studies to illustrate assessment techniques Exposes reader to real world application of each assessment discussed
