Mystery of The Night Café Cliff Edwards, 2009-03-20 Written like a detective story this book explores the spirituality of one of the world s most beloved artists Vincent van Gogh through one of Western art s most mysterious paintings The Night Caf Done in almost garish colors the work depicts a late night in a caf serving a poorer element of society and Van Gogh himself saw both destructive forces and gaiety in the work With author Cliff Edwards we follow a trail of clues from a Yale art gallery to a neighborhood in Arles from a novel by mile Zola to a largely forgotten image of Jesus that hung in Van Gogh s bedroom We enter the imagination of Van Gogh through the books he read the art he admired and the people with whom he identified and arrive at startling conclusions that include a new and deeply spiritual understanding of a caf after midnight and the night prowlers who inhabit it

The Art of Scripture The National Gallery, 2025-09-18 From the majesty of Genesis to the mystery of Revelation the Bible contains some of the world s most powerful stories and sublime wisdom It is also the inspiration for some of the greatest pictures ever painted Adam and Eve in the Garden of Eden Moses and the exodus from Egypt Samson betrayed by Delilah David slaying Goliath the beauty of Bathsheba the wisdom of Solomon these are among the dramatic scenes and memorable characters in the Old Testament portrayed here by artists such as Poussin Rembrandt and Rubens In the New Testament the figure of Jesus takes centre stage with his compelling parables and miracles depicted by artists such as Caravaggio Duccio El Greco Raphael Titian and Velazquez Together these words and paintings convey a profound sense of the sacred Both may go back many hundreds of years and yet they still have the power to move and inspire us today

The Art of Reading Jamie Camplin, Maria Ranauro, 2018-10-02 Why do artists love books This volume takes this tantalizingly simple question as a starting point to reveal centuries of symbiosis between the visual and literary arts First looking at the development of printed books and the simultaneous emergence of the modern figure of the artist The Art of Reading appraises works by the many great masters who took inspiration from the printed word Authors Jamie Camplin and Maria

Ranauro weave together an engaging cultural history that probes the ways in which books and paintings represent a key to understanding ourselves and the past. Paintings contain a world of information about religion, class, gender, and power, but they also reveal details of everyday life often lost in history texts. Such artworks show us not only how books have been valued over time but also how the practice of reading has evolved in Western society. Featuring over one hundred works by artists from across Europe and the United States and all painting genres, *The Art of Reading* explores the two thousand year story of the great painters and the preeminent information providing knowledge, endowing solace, giving belief, supporting leisure, enriching pleasure, delivering medium of all time: the book. It contends that yellow functions during this period primarily as a color of stigma and scandal. Yellow stigmatization has had a long history; it goes back to the Middle Ages when Jews and prostitutes were forced to wear yellow signs to emphasize their marginal status. Although scholars have commented on these associations in particular contexts, Sabine Doran offers the first overarching account of how yellow connects disparate cultural phenomena such as the turn of the century, decadence, the yellow nineties, the rise of mass media, yellow journalism, mass immigration from Asia, the yellow peril, and mass stigmatization, the yellow star that Jews were forced to wear in Nazi Germany. *The Culture of Yellow* combines cultural history with innovative readings of literary texts and visual artworks, providing a multilayered account of the unique role played by the color yellow in late nineteenth and twentieth century American and European

culture **A Companion to Impressionism** André Dombrowski, 2028-08-14 The 21st century's first major academic reassessment of Impressionism providing a new generation of scholars with a comprehensive view of critical conversations. Presenting an expansive view of the study of Impressionism, this extraordinary volume breaks new thematic ground while also reconsidering established questions surrounding the definition, chronology, and membership of the Impressionist movement. In 34 original essays from established and emerging scholars, this collection considers a diverse range of developing topics and offers new critical approaches to the interpretation of Impressionist art. Focusing on the 1860s to 1890s, this Companion explores artists who are well represented in Impressionist studies, including Monet, Renoir, Degas, and Cassatt, as well as Morisot, Caillebotte, Bazille, and other significant yet lesser-known artists. The essays cover a wide variety of methodologies in addressing such topics as Impressionism's global predominance at the turn of the 20th century, the relationship between Impressionism and the emergence of new media, the materials and techniques of the Impressionists, and the movement's exhibition and reception history. Part of the acclaimed Wiley Blackwell Companions to Art History series, this important new addition to scholarship in this field reevaluates the origins, chronology, and critical reception of French Impressionism. Discusses Impressionism's account of modern identity in the contexts of race, nationality, gender, and sexuality. Explores the global reach and influence of Impressionism in Europe, the Middle East, East Asia, North Africa, and the Americas. Considers Impressionism's relationship to the emergence of film and photography in the 19th century. Considers Impressionism's representation of the private sphere as compared to its depictions of public issues such as empire, finance, and environmental change. Addresses the Impressionist market and clientele, period criticism, and exhibition displays from the late 19th century to the middle of the 20th century. Features original essays by academics, curators, and conservators from around the world, including those from France, Germany, the United States, the United Kingdom, Japan, Turkey, and Argentina. The Wiley Blackwell Companion to Impressionism is an invaluable text for students and academics studying Impressionism and late 19th-century European art, Post-Impressionism, modern art, and modern French cultural history. **Catalogue, Stratford College ...
