The Story of Inyo Willie Arthur Chalfant, 1922 Inyo County was at the forefront of the Western expansion of the 19th century a place of rugged natural beauty that served as a gateway to the prospering state of California Published in 1922 this history begins with an examination of the geological facts of the area located between Nevada and the Sierra Nevada mountain range the Inyo County contains abundant clues of the land s history The Native Americans who resided there are discussed while the first white settlers discovered the lands sometime in the early 1800s By the time of the Gold Rush Inyo County was considered a popular shortcut to the Californian heartlands Yet it was a dangerous and harsh land the nearby Death Valley a place noted for claiming lives through its sheer heat Host to several battles between the settlers and Native American tribes Inyo gained notoriety as a place of skirmishes and conflict War was intermittent and the two sides would live in uneasy peace for years before conflict over land erupted anew Later in the 19th century the county endured the emergence of outlaws a prison break at Carson plus various robberies and other villainous crimes are discussed at length Earthquakes and the advancement of the mining industry plus the gradual arrival of organized government and law enforcement made Inyo an eventful place to reside into the 20th century

A History of the Lands Added to Death Valley National Monument by the California Desert Protection Act of 1994 Harlan D.

Unrau, 1997 **Death Valley and the Amargosa** Richard E. Lingenfelter, 1988-01-11 This is the history of Death Valley where that bitter stream the Amargosa dies It embraces the whole basin of the Amargosa from the Panamints to the Spring Mountains from the Palmettos to the Avawatz And it spans a century from the earliest recollections and the oldest records to that day in 1933 when much of the valley was finally set aside as a National Monument This is the story of an illusory land of the people it attracted and of the dreams and delusions they pursued the story of the metals in its mountains and the salts in its sinks of its desiccating heat and its revitalizing springs and of all the riches of its scenery and lore the story of Indians and

horse thieves lost argonauts and lost mine hunters prospectors and promoters miners and millionaires stockholders and stock sharps homesteaders and hermits writers and tourists But mostly this is the story of the illusions the illusions of a shortcut to the gold diggings that lured the forty niners of inescapable deadliness that hung in the name they left behind of lost bonanzas that grew out of the few nuggets they found of immeasurable riches spread by hopeful prospectors and calculating con men and of impenetrable mysteries concocted by the likes of Scotty These and many lesser illusions are the heart of its history

Bauer, Jr., Jr., 2016-06-01 Bauer tells California history strictly through Native perspectives Most California histories begin with the arrival of the Spanish missionaries in the late eighteenth century and conveniently skip to the Gold Rush of 1849 Noticeably absent from these stories are the perspectives and experiences of the people who lived on the land long before European settlers arrived Historian William Bauer seeks to correct that oversight through an innovative approach that tells California history strictly through Native perspectives Using oral histories of Concow Pomo and Paiute workers taken as part of a New Deal federal works project Bauer reveals how Native peoples have experienced and interpreted the history of the land we now call California Combining these oral histories with creation myths and other oral traditions he demonstrates the importance of sacred landscapes and animals and other nonhuman actors to the formation of place and identity He also examines tribal stories of ancestors who prophesied the coming of white settlers and uses their recollections of the California Indian Wars to push back against popular narratives that seek to downplay Native resistance The result both challenges the California story and enriches it with new voices and important points of view serving as a model for understanding Native historical perspectives in other regions **Chronology of the Death Valley Region in California, 1849-1949, and Place Names**

of the Death Valley Region in California and Nevada, 1845-1947 Theodore Sherman Palmer, 1989-01-01 Chronology and Names of the Death Valley Region in California 1849 1949 **Balinese Temples** Julian Davison, Bruce Granquist, 1999 This book is intended to provide a general introduction to the architectural symbolism of the Balinese temple by looking at some of the most interesting temple complexes on the island and describing their salient features in relation to Balinese ideas **Climatological Data**, 1953 **The Making of Yosemite** Jen A. Huntley, 2014-01-31 Leader of the first tourist expedition into Yosemite in 1855 James Mason Hutchings became a tireless promoter of the valley and of himself Seeking to create an alternative to California's Gold Rush social chaos Hutchings whetted the public enthusiasm for this unspoiled land by mass producing a lithograph of Yosemite Falls while his Hutchings California Magazine beat the drum for tourism But because of his later legal imbroglios over the park Hutchings was effectively written out of its history and today he is largely viewed as an opportunist who made a career out of exploiting Yosemite Now Jen Huntley removes the tarnish from Hutchings's image She portrays him instead as a connector who brought artists to Yosemite and Yosemite to Americans and uses his career as a lens through which to view the contests and debates surrounding the creation of Yosemite and by extension America's emerging ethic of land conservation Blending environmental and cultural history she tracks Hutchings's professional trajectory amidst significant changes in nineteenth century America from technological advances in printing to the growth of tourism from the birth of modern environmental movements to battles over public lands Huntley uses Hutchings's legal battles with the government over ownership of land in the Yosemite Valley to analyze larger battles over public land management and national identity She also explores the role of urban San Francisco in designating Yosemite a public park shows how the Civil War transformed Yosemite from a regional icon to a national symbol of post war redemption and takes a closer look at Hutchings's relationship with John Muir Making Yosemite sheds light on the role of power class dynamics and the late century ideal of individualism in the shaping of modern America's sacred landscapes Hutchings emerges here as a visionary communicator who cleverly tapped into midcentury Americans attitudes toward spectacular scenery to create a sense of place based identity in the American Far West Huntley's revisionist approach rediscovers Hutchings as a key player in the histories of American media tourism and environmentalism and suggests new terrain for scholars to consider in writing the histories of our national parks conservation and land policy **Encounters with the World's Religions** Brad Karelus, 2015-05-15 A spectacular stretch of earth the Eastern Sierra region of California reveals volcanic reefs desert sand dunes majestic mountains and snow fed lakes and rivers Drawing on forty years of college teaching on the world's religions Professor Brad Karelus is your guide uncovering deep spiritual dimensions in this achingly beautiful place This book shares crystallizations of religious wisdom collected through the ages and finely tuned descriptions of holy sites which you may visit that will draw you deeper in your personal encounters with world spiritualities
