Historical Dictionary of Cycling Bill Mallon, Jeroen Heijmans, 2011-09-09 The nearly 150 year old sport of cycling had its first competition in France in 1868. Soon afterward the need arose for purpose built cycling tracks because of poor road conditions at the time. Racing on blocked off pieces of street or grass soon evolved into racing on special tracks called velodromes. This development marked the split into what are still the two main forms of cycling competition: road racing and track racing. Initially track cycling was more popular in terms of public attention and money to be earned by racers but this gradually changed in favor of road racing which has been the most popular form of cycling since at least the end of World War II. The Historical Dictionary of Cycling takes a closer look at the sport as well as discussing the use of bicycles as a means of fitness, touring and commuting. This is done through a chronology, an introductory essay, appendixes, photos, a bibliography and over 500 cross referenced dictionary entries on cycling's two main disciplines: road and track as well as brief overviews of the other forms of cycling. This book is an excellent access point for students, researchers and anyone wanting to know more about cycling.

The Daily Telegraph Book of the Tour de France Martin Smith, 2012-06-03 A man, a bike and the open road. What could be simpler? Certainly not the Tour de France, the annual travelling circus which for more than a century has been the ultimate test of sporting endurance. There's been pain. There's been joy. There's been death. There's been derring-do of mythic proportions. There's been cheating. There've been drugs. There've always been drugs. And there's always been the Daily Telegraph. On the peaks of Mont Ventoux, Alpe d'Huez and Col du Galibier, in amongst the picnicking, partying crowds whizzing through London in 2007's wondrous opening stage, dropping in and out of the peloton, the Telegraph has been there for every turn of the wheel. The book features eyewitness accounts of cycling greats: Fausto Coppi, Jacques Anquetil, Eddy Merckx, Bernard Hinault, Miguel Indurain and Lance Armstrong, along with details of the contest's darker side including the 1967 death of Tom Simpson and the stain of doping. Boasting contemporary firsthand reports from leading cycling correspondents including J.B. Wadley, David Saunders and Phil Liggett, this book captures the full drama of the tour. Chris Boardman and David Millar provide views from the saddle. James Cracknell swaps his boat for a bike on a pre-race reconnaissance mission. Paul Hayward catalogues the 1998 Tour of Shame while Brendan Gallagher eulogises the colossi who bestrode the race and searches for their modern day successors. Together they chronicle the greatest show on two wheels. Martin Smith was formerly assistant sports editor and sports writer at the Daily Telegraph where he worked for more than twenty years. An enthusiastic cyclist in his youth, he graduated to the less arduous four wheels as soon as he was able.

Speed Read Tour de France John Wilcockson, 2019-05-07 This beautifully designed and illustrated essential guide to the Tour de France from Motorbooks Speed Read series will make you an instant expert on its history, its winners and rivalries, the tactics necessary to win it and the technology of its bicycles. Le Tour has

sometimes been called chess on wheels because of the complicated strategies used by the race's 22 teams and 176 riders. This book, written by award-winning cycling journalist John Wilcockson who has covered the Tour 45 times, will help you understand those tactics along with informing you about the race's century-plus history, its famed winners and rivalries, and the technology that has gone into creating the modern racing bicycle and determining how today's athletes train. Among the questions answered are: Who owns the Tour? How are the course's 21 stages selected? What are the most famous mountain climbs? How is the overall winner determined? What is a peloton, a *soigneur*, or an echelon? How big are the prizes? What are time bonuses? Who was the first American to compete in the Tour, and who was the first one to win it? How fast do the racers go down mountain descents? What speeds can the riders reach in sprint finishes? Why are the teams known by the names of their sponsors and not their countries? What do the riders eat, and where do they sleep every night? What are all those motorcycles doing among the cyclists? How do the organizers deal with doping scandals? And is it true that one year the top four finishers were all disqualified? You will find the answers to all these questions and many more in this informative, beautifully illustrated, fun-to-read book. *Speed Read: Tour de France* With Motorbooks Speed Read series become an instant expert in a range of fast-moving subjects from Formula 1 racing to car design. Tour de France Christopher S. Thompson, 2008-03-08 In this highly original history of the world's most famous bicycle race, Christopher S. Thompson mines previously neglected sources and writes with infectious enthusiasm for his subject, telling the compelling story of the Tour de France from its creation in 1903 to the present. Weaving the words of racers, politicians, Tour organizers, and a host of other commentators together with a wide-ranging analysis of the culture surrounding the event, including posters, songs, novels, films, and media coverage, Thompson links the history of the Tour to key moments and themes in French history. Examining the enduring popularity of Tour racers, Thompson explores how their public images have changed over the past century. A new preface explores the long-standing problem of doping in light of recent scandals. *Sports Through the Lens of Economic History* Richard Pomfret, John K. Wilson, 2016-08-26 From professional team sports to international events such as the Olympics and Tour de France, the modern sports industry continues to attract a large number of spectators and participants. It begins at a time when entrepreneurs and players first started making money from professional sports leagues, through to the impact of radio and TV in the twentieth century, and onto the present day. **Le Tour** Geoffrey Wheatcroft, 2004 When Henri Desgrange began a new bicycle road race in 1903, he saw it as little more than a temporary publicity stunt to promote his newspaper.
