Baudelaire's Bitter Metaphysics

Aaron Brice Cummings,2024-09-12 Baudelaire s Bitter Metaphysics Anti Nihilist Readings by Fondane Benjamin and Sartre reconstructs a philosophical dialogue that might have been expected to take place between Benjamin Fondane Walter Benjamin and Jean Paul Sartre over their philosophical readings of Charles Baudelaire an exchange preempted by the untimely deaths of two of the interlocutors during the Nazi holocaust Why did three of Europe s sharpest minds respond to the terror of 1933 45 by writing about a long dead poet Aaron Brice Cummings argues that Fondane Benjamin and Sartre turned to the poet of nihilism s abyss because they recognized a fact of cultural history that remains relevant today until sometime in the 2080s the literary world will have to confront even if to deny the two century window forecast by Nietzsche as the age of cultural and existential nihilism Accordingly the author examines the bitter metaphysics latent in Baudelaire s motifs of the abyss clocks brutes streets and bored dandies In so doing this book confronts the nothingness which modern life encounters in the heart of art ethics ideality time memory history urban life and religion *The Pitfalls of Virtue Ethics*

Husain Sarkar,2025-09-18 In this book Husain Sarkar offers a remarkable look into the groundwork of virtue ethics Especially focusing on theories proposed by Julia Annas and Rosalind Hursthouse he examines a multiplicity of cardinal tenets of virtue ethics by bringing five cardinal objections namely the self defeating objection the circularity objection the moral relativism objection the explanatory poverty objection and the inconsistent advice objection to bear upon them These objections define the shape scope and substance of the book Collectively they unveil several fault lines a few hitherto unsuspected Sarkar argues that notwithstanding the novel intriguing answers to old familiar ethical questions the answers are so fraught with difficulties that virtue ethics as a philosophical moral tradition is best seen as badly in need of repair and reformation Perhaps this book may provoke a Renaissance in the field of virtue ethics **Beyond Good and Evil**

German: Jenseits von Gut und Böse. Vorspiel einer Philosophie der Zukunft. is a book by philosopher Friedrich Nietzsche that expands the ideas of his previous work Thus Spoke Zarathustra with a more critical and polemical approach. It was first published in 1886. In Beyond Good and Evil, Nietzsche accuses past philosophers of lacking critical sense and blindly accepting dogmatic premises in their consideration of morality. Specifically, he accuses them of founding grand metaphysical systems upon the faith that the good man is the opposite of the evil man, rather than just a different expression of the same basic impulses that find more direct expression in the evil man. The work moves into the realm beyond good and evil in the sense of leaving behind the traditional morality which Nietzsche subjects to a destructive critique in favour of what he regards as an affirmative approach that fearlessly confronts the perspectival nature of knowledge and the perilous condition of the modern individual. Philosophy as Experimentation, Dissidence and Heterogeneity José Miranda Justo, Elisabete M. de Sousa, Fernando M. F. Silva, 2021-09-24 Contemporary philosophical research interconnects classical domains of philosophy, the arts, literature, and social sciences. This collection of essays explores the operational role of experimentation, dissidence, and heterogeneity in this

process It offers fundaments for the criticism of monolithical tendencies often put forward under the banner of the Speculative Turn or New Realism by means of exploring the contribution and influence of authors such as J G Hamann Kierkegaard Nietzsche and Guy Debord These philosophers historically placed within the margins of the philosophical mainstream were decisive in the emergence of the philosophical thought and practices of Deleuze Wittgenstein and Bataille as shown here The reader will also find re evaluations of the contributions of Vico Spinoza or Kant to posterity next to new readings of authors like Foucault Hadot Benjamin and Adorno with regards to their significant experimental and dissident positions
