Latinas/os in the United States Havidan Rodriguez, Rogelio Saenz, Cecilia Menjivar, 2007-11-21 Clara E Rodriguez As is befitting a book on Latinas/os at the start of the 21st century the chapters in this volume reflect the contemporary panorama of Latinas/os in the United States Today Latinas/os are the largest minority group They accounted for 12.5% of the total U.S. population in the last decennial census recent estimates showed the Hispanic population to be 41.3 million as of July 1, 2004 or 14% of the nation's total population However this estimate does not include the 3.9 million residents of Puerto Rico who are also U.S. citizens and would raise the total to 24.5 million This would make the U.S. population of Latinos the second largest Spanish origin population in the hemisphere after Mexico The growth of this population since 1980 has been dramatic Hispanics/Latinos grew more than seven times faster than the population of the nation as a whole increasing by half whereas the white non-Hispanic population increased by only 6% between 1980 and 1990 U.S. Bureau of the Census 1991 Table 1 U.S. Bureau of the Census 1993 p. 2 In the 1990s the Hispanic population increased 58% Moreover between 2003 and 2004 one of every two people added to the nation's population was Hispanic/Latino Consequently not only are Latinos a substantial part of the U.S. population but they account for half its population growth

Forms of Dictatorship Jennifer Harford Vargas, 2018 An intra-ethnic study of Latina/o fiction written in the United States from the early 1990s to the present *Forms of Dictatorship* examines novels that depict the historical reality of dictatorship and exploit dictatorship as a literary trope This literature constitutes a new sub-genre of Latina/o fiction which the author calls the Latina/o dictatorship novel The book illuminates Latina/os' central contributions to the literary history of the dictatorship novel by analyzing how Latina/o writers with national origin roots in the Caribbean, Mexico and Central and South America imaginatively represent authoritarianism The novels collectively generate what Harford Vargas terms a Latina/o counter-dictatorial imaginary that positions authoritarianism on a continuum of domination alongside imperialism, white supremacy, heteropatriarchy, neoliberalism and border militarization Focusing on novels by writers such as Junot Díaz, Héctor Tobar, Cristina García, Salvador Plascencia and Francisco Goldman the book reveals how Latina/o dictatorship novels foreground more ubiquitous modes of oppression to indict Latin American dictatorships U.S.

imperialism and structural discrimination in the U S as well as repressive hierarchies of power in general Harford Vargas simultaneously utilizes formalist analysis to investigate how Latina o writers mobilize the genre of the novel and formal techniques such as footnotes focalization emplotment and metafiction to depict dictatorial structures and relations In building on narrative theories of character plot temporality and perspective Harford Vargas explores how the Latina o dictatorship novel stages power dynamics Forms of Dictatorship thus queries the relationship between different forms of power and the power of narrative form that is between various instantiations of repressive power structures and the ways in which different narrative structures can reproduce and resist repressive power Latino Almanac Nicolás
