Accelerated women empowerment programs often fail to attain their targets as envisaged by the policymakers due to a variety of reasons with the most prominent being the deep rooted cultural norms ingrained within society. In the era of globalization, empowerment of women demands new approaches and strategies that encourage the mainstreaming of gender equality as a societal norm. The Handbook of Research on New Dimensions of Gender Mainstreaming and Women Empowerment is a critical scholarly publication that examines global gender issues and new strategies for the promotion of women empowerment and gender mainstreaming in various spheres of women's lives including education and ICT, economic participation, health and sexuality, mental health, aging, law and judiciary, leadership and decision making.
