The Soul In The Computer The Story Of A Corporate Revolutionary:

The Soul in the Computer Barbara Waugh, Margot Silk Forrest, 2001 The memoir of an activist who joined Hewlett Packard in the mid 1980s determined to bring her social change agenda into the corporate arena **Principled Profit** Shel Horowitz, 2003 Horowitz offers the latest addition to the deluge of morally centred business tomes In one way it is an overturning of traditional corporate wisdom see your competitors as your allies not your adversaries Horowitz suggests but it is also something we've been hearing an awful lot of lately build meaningful relationships with your customers view your employees as your partners and so on Nevertheless the arguments are all sound and illustrated with the customer obsessed success stories of ventures like Saturn and Nordstrom Horowitz is at his best when displaying his canny understanding of the media world advising how to fit your business's message with the media's need to produce timely relevant stories **The Workplace Revolution** Matthew Gilbert, 2005-03-01 From the Enron debacle to the Martha Stewart scandal trust in business practices and in corporate leaders has been seriously jeopardized hitting an all time low According to Matthew Gilbert in his latest book *The Workplace Revolution* the problem stems from a relentless work ethic the tireless pursuit of profit and the conflict between business values and human values Today more than ever people are waking up to the fact that they are not getting back what they give to their employers While they are dedicating an inordinate amount of themselves to their work their jobs offer little to meet their needs for community self expression and service and many have simply abandoned the possibility that self serving profit driven companies can offer more than a paycheck Gilbert assures us that the problem is not hopeless In *The Workplace Revolution* he provides both personal strategies and corporate methodologies for improving overall health in the workplace and restoring trust and goodwill between business leaders and their employees With statistics and commentary from a wide range of sources and examples of companies such as Hewlett Packard that are already balancing economic and human concerns he demonstrates to worker and CEO alike that they can turn the experience of work into a spiritual ideal based life enhancing adventure for all concerned and still meet corporate goals Revolutionary concepts for today's corporations and the health of their employees **Guerrilla Marketing to Heal the World** Jay Conrad Levinson, Shel Horowitz, 2016-03-15 Levinson and Horowitz show the dramatic potential for profit in not just being a green company but in addressing the huge social problems that have stumped humankind for millennia Instead of waiting centuries for government to get it done business can grab the reins and accomplish more through the profit motive than through any amount of guilt tripping Green practices can save and make money and deep social change can skyrocket those revenues when marketed correctly *The Soul in the Computer* Barbara Waugh, Margot Silk Forrest, 2001 How a 60 s radical started a business revolution at Hewlett Packard and how her tools can transform any company A rousing inspiring story and a model for right action in companies of all sizes *Speak the Truth and Point to Hope* Lisa Marshall, 2004
