The Paris Framework for Climate Change Capacity Building Mizan R Khan,J. Timmons Roberts,Saleemul Huq,Victoria Hoffmeister,2018-04-09 The Paris Framework for Climate Change Capacity Building pioneers a new era of climate change governance performing the foundational job of clarifying what is meant by the often ad hoc one off uncoordinated ineffective and unsustainable practices of the past decade described as capacity building to address climate change As an alternative this book presents a framework on how to build effective and sustainable capacity systems to meaningfully tackle this long term problem Such a reframing of capacity building itself requires means of implementation The authors combine their decades long experiences in climate negotiations developing climate solutions climate activism and peer reviewed research to chart a realistic roadmap for the implementation of this alternative framework for capacity building As a result this book convincingly makes the case that universities as the highest and sustainable seats of learning and research in the developing countries should be the central hub of capacity building there This will be a valuable resource for students researchers and policy makers in the areas of climate change and environmental studies
