O. Morton, 2018-06-15 *The Tarot of the Bohemians* Papus, Therefore you must open the book and carefully weigh the statements made in it Then you will know that the drug within is of very different value from the promise of the box that is to say that the subjects treated in it are not so frivolous as the title may imply RABBLAIS WE are on the eve of a complete transformation of our scientific methods Materialism has given us all that we can expect from it and inquirers disappointed as a rule hope for great things from the future whilst they are unwilling to spend more time in pursuing the path adopted in modern times Analysis has been carried in every branch of knowledge as far as possible and has only deepened the moats which divide the sciences Synthesis becomes necessary but how can we realize it If we would condescend to waive for one moment our belief in the indefinite progress and fatal superiority of later generations over the ancients we should at once perceive that the colossal civilizations of antiquity possessed Science Universities and Schools India and Egypt are still strewn with valuable remains which reveal to archaeologists the existence of this ancient science We are now in a position to affirm that the dominant character of this teaching was synthesis which condenses in a few very simple laws the whole of the acquired knowledge But the use of synthesis had been almost entirely lost through several causes which it is important to enumerate Amongst the ancients

knowledge was only transmitted to men whose worth had been proved by a series of tests This transmittal took place in the temples under the name of mysteries and the adept assumed the title of priest or Initiate 1 This science was therefore secret or occult and thus originated the name of occult science given by our contemporaries to the ancient synthesis Another reason for the limited diffusion of the higher branches of knowledge was the length and difficulty of the journeys involved before the most important centres of initiation could be reached **The Tarot of the Bohemians** Papus, Arthur Edward Waite, 1975

escape his mental clutch in triumph at the best they have but the substance of a dream Much ingenuity is shown in the explanation of the greater or major arcana which are all picture cards There are twenty two of them one for each letter of the Hebrew alphabet according to Papus Beginning with the Juggler he explains the design by still deeper symbols connecting the figure with a so called primitive hieroglyphic and the Kabbalah under the head of affinities and affirming that the position of the figure and the very shape of the hat have philosophical and religious significations In fact the intricate meanings attached to each card amount at last to the history of the universe including creation and the life of man here and hereafter from a metaphysical point of view tempered by a sort of spiritualistic and theosophical ecstasy over the things of our work a day world The letters of the Hebrew alphabet glide in amongst these phantasies like irrelevant sprites and amongst other absurdities the letter he loses its vital existence together with its aspirate and the well known origin of the letter aleph being ignored it is supposed to be made up out of the letter yod four times repeated Occult mysteries are said to hang on these comical misrepresentations and they will have to go in quest of other and less philological places of refuge By the time the lesser or minor arcana are reached where common packs of cards with an extra picture card are dealt with the spirit of the Tarot should have entered into the reader causing a stupefaction that will enable him to take the pranks the numbers play with each other as the most natural thing in the world or out of it For instance a number that binds others together apparently by its own elastic nature is rewarded by becoming the first of a new set By virtue of this innate self transforming power of the fourths and sevenths the major and minor arcana are united and the latter are also marshaled amongst themselves The Saturday Review of Politics Literature Science and Art Volume *Absolute Key to Occult Science. the Tarot of the Bohemians. the Most Ancient Book in the World. for the Exclusive Use of Initiates - Scholar's Choice Edition* A P Morton,1865-1916 Papus,2015-02-13 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant *Absolute Key to Occult Science.
