The Spirit Of The Huckleberry Sensuousness In Henry Thoreau:

The Spirit of the Huckleberry Victor Carl Friesen, 1984 Thoreau's delight in being attuned to each sound sight flavour touch and taste of nature is pervasive in his writings Victor Friesen looks at the implications of Thoreau's sensuous approach to nature throughout his life *The Cambridge Companion to Henry David Thoreau* Joel Myerson, 1995-06-30 The Cambridge Companion to Henry David Thoreau is intended as an accessible guide to reading and understanding the works of Thoreau Presenting essays by a distinguished array of contributors the Companion is a valuable resource for historical and contextual material whether on early writings like *A Week on the Concord and Merrimack Rivers* on the monumental *Walden* or on his assorted journals and later books It also serves in some ways as a biographical guide offering new insights into his turbulent publishing career and his brief but extraordinarily original life In short the Companion helps the reader come to Thoreau's writings as he would say deliberately and reservedly by suggesting how Thoreau uses language how his biography informs his writing how personal and historical influences shaped his career and how his writings function as literary works

Henry David Thoreau Harold Bloom, 2007 Henry David Thoreau was a naturalist transcendentalist philosopher and essayist His views on civil disobedience and nature have become a part of the American character This updated volume of the Bloom's Modern Critical Views series is a keenly detailed chronicle of the great thinker who will forever be known for his experiment in simple living documented in his work *Walden* **Thoreau's Living Ethics** Philip Cafaro, 2010-01-25 Thoreau's *Living Ethics* is the first full rigorous account of Henry Thoreau's ethical philosophy Focused on *Walden* but ranging widely across his writings the study situates Thoreau within a long tradition of ethical thinking in the West from the ancients to the Romantics and on to the present day Philip Cafaro shows Thoreau grappling with important ethical questions that agitated his own society and discusses his value for those seeking to understand contemporary ethical issues Cafaro's particular interest is in Thoreau's treatment of virtue ethics the branch of ethics centered on personal and social flourishing Ranging across the central elements of Thoreau's philosophy life virtue economy solitude and society nature and politics Cafaro shows Thoreau developing a comprehensive virtue ethics less based in ancient philosophy than many recent efforts and more grounded in modern life and experience He presents Thoreau's evolutionary experimental ethics as superior to the more static foundational efforts of current virtue ethicists Another main focus is Thoreau's environmental ethics The book shows Thoreau not only anticipating recent arguments for wild nature's intrinsic value but also demonstrating how a personal connection to nature furthers self development moral character knowledge and creativity Thoreau's life and writings argues Cafaro present a positive life affirming environmental ethics combining respect and restraint with an appreciation for human possibilities for flourishing within nature Nature Religion in America Catherine L. Albanese, 1991-09-24 Charts the multiple histories of American nature religion and explores the moral and spiritual responses the encounter with nature has provoked throughout American history Traces the connections between movements and individuals Includes figures from

popular culture such as the Hutchinson Family Singers and Davy Crockett as well as Thomas Jefferson Ralph Waldo Emerson Henry David Thoreau and John Muir

Walden's Shore Robert M. Thorson, 2014-01-06 *Walden's Shore* explores Thoreau's understanding of the living rock on which life's complexity depends not as metaphor but as physical science Robert Thorson's subject is Thoreau the rock and mineral collector interpreter of landscapes and field scientist whose compass and measuring stick were as important to him as his plant press

The Environmental Imagination Lawrence Buell, 1996-09-01 With Thoreau's *Walden* as a touchstone Buell offers an account of environmental perception the place of nature in the history of Western thought and the consequences for literary scholarship of attempting to imagine a more ecocentric way of being In doing so he provides a profound rethinking of our literary and cultural reflections on nature

Thoreauvian Modernities François Specq, Laura Dassow Walls, Michel Granger, 2013-02-01 Does Thoreau belong to the past or to the future Instead of canonizing him as a celebrant of pure nature apart from the corruption of civilization the essays in *Thoreauvian Modernities* reveal edgier facets of his work how Thoreau is able to unsettle as well as inspire and how he is able to focus on both the timeless and the timely Contributors from the United States and Europe explore Thoreau's modernity and give a much needed reassessment of his work in a global context The first of three sections *Thoreau and Non Modernity* views Thoreau as a social thinker who set himself against the modern currents of his day even while contributing to the emergence of a new era By questioning the place of humans in the social economic natural and metaphysical order he ushered in a rethinking of humanity's role in the natural world that nurtured the environmental movement The second section *Thoreau and Philosophy* examines Thoreau's writings in light of the philosophy of his time as well as current philosophical debates Section three *Thoreau Language and the Wild* centers on his relationship to wild nature in its philosophical scientific linguistic and literary dimensions Together these sixteen essays reveal Thoreau's relevance to a number of fields including science philosophy aesthetics environmental ethics political science and animal studies *Thoreauvian Modernities* posits that it is the germinating power of Thoreau's thought the challenge it poses to our own thinking and its capacity to address pressing issues in a new way that defines his enduring relevance and his modernity Contributors Kristen Case Randall Conrad David Dowling Michel Granger Michel Imbert Michael Jonik Christian Maul Bruno Monfort Henrik Otterberg Tom Pughe David M Robinson William Rossi Dieter Schulz François Specq Joseph Urbas Laura Dassow Walls

Nineteenth Century Prose, 2004

The Routledge Companion to Literature and Food Lorna Piatti-Farnell, Donna Lee Brien, 2018-04-19 The *Routledge Companion to Literature and Food* explores the relationship between food and literature in transnational contexts serving as both an introduction and a guide to the field in terms of defining characteristics and development Balancing a wide reaching view of the long histories and preoccupations of literary food studies with attentiveness to recent developments and shifts the volume illuminates the aesthetic cultural political and intellectual diversity of the representation of food and eating in literature
