**Common Nonsense** Kabembo Chinku,2012-09 It s almost a universal phenomenon Nobody knows when how and why it started but society somehow allows their political leaders to get away with nearly anything up to and including murder at least in many countries in Asia Eastern Europe Africa and Central and South America Here in these United States of America no one is suggesting at least not me that our political leaders are guilty of committing

murders To the extent that anybody can accuse them of such it s their enacting of lax gun laws at the behest of the NRA Thanks to these laws anyone applying for a permit to buy an automatic assault weapon is no more subjected to rigorous background check than they are buying candy By this and this alone U S politicians are partly to blame in the deaths of innocent people Anyway this book is not about murders or guns In a way though it s about death the death of reason and sense in politics It s about some insidious behavior that politicians get away with Society itself is to blame for tacitly permitting politicians to engage in such a behavior So here in the United States as is the case everywhere politicians get away with too much Corruption lying or showing a disdain for facts being lazy stealing and cheating on their spouses We also allow them to make promises that they can t possibly keep or never keeping promises that they can easily keep We have put the bar for tolerable behaviors or conduct expected of our leaders very low We have reached a stage where the moral code of our politicians is on par with if not worse than that of criminals Well this author decided to draw a line a red line if you want to be dramatic on dumbassness or rather on the dumb things that the people we look up to in society especially our political leaders say They can get away with lying being corrupt etc but they will not be let off so easily for saying things that are decidedly dumb Just as Iran will hear from Israel and the U S if its nuclear or as George W Bush would say nuclear ambitions crosses Israeli Prime Minister Benjamin Netanyahu s somewhat arbitrary red line politicians here will hear from me if and when they cross my own arbitrarily laid dumbassness red line Like most citizens I ll tolerate barely such maladapted behaviors of our politicians as corruption cheating infidelity lying not keeping campaign promises etc but not dumbassness This is what this book is about This author s blood boils when he hears these stupid politicians like Indiana s U S Senate candidate Richard Mourdock say such things as A woman being raped and conceiving as a result is in God s grand scheme of things That is God wanted it that way and therefore that the victim shouldn t be allowed to terminate such a pregnancy Unlike most books this is not one long continuous story One need not necessarily start reading from page one or chapter one successively to the last One can jump around or even begin with the last chapter Every chapter is a stand alone chapter There is no continuity to worry about if you decide to read the book in a sort of haphazard manner You re going to encounter unbelievable dumbassness of our politicians on every page Politicians and other leaders of society may get away with having the morals and ethics of alley cats but I ll be damned if I ll let them get away with the immaturity of pre adolescents and the dumbassness of a jackass This is my raison d etre or if you want to be religious about it it s my calling Let me add that had my sense of self preservation not been so heightened I d have moved to Russia to take on Emperor Vladimir Putin But I don t like having Polonium 210 as part of my diet Thank you and enjoy Kabembo Chinku *10 Rules for Talking* Tim Harkness, 2020-06-25 Psychologist Tim Harkness has noticed sometimes it seems everyone is shouting but nobody is listening Surely we don t need to learn how to talk And yet in an age of Brexit and Trump where social media provides a platform for instantaneous unfettered opinion doesn t it feel that we ve lost our ability to move discussions

forward 10 Rules for Talking is a timely guide to help you talk to people who don't share your opinion Harkness focuses on difficult conversations the complex emotional and recurring discussions that persistently affect our personal and professional lives The ten rules will teach you to remember most people are good and worthy of respect Rule 3 why it is important to keep a conversation safe Rule 5 and how to truly listen Rule 9 Learn how to persuade respond and most importantly keep the conversation progressing Welcome to a new way of talking
