transformative epoch in historical research spotlighting the innovative methodology of network analysis As the digital age unfolds historians encounter both an unparalleled opportunity and a daunting challenge navigating the vast digital repositories of historical data Central to this volume's discourse is the imperative for a methodological shift in examining modern China's historical research By embracing the digital evolution this volume highlights the promise of network analysis as a model for historians Modern China rich in tales of socio political upheavals economic transformations and cultural shifts emerges as a nuanced tapestry of intertwined narratives Capturing its intricacies necessitates an approach that illuminates the multiple connections alliances and conflicts that shaped its course Here network analysis proves invaluable By exploring textual databases and archival documents and leveraging the capabilities of full text historical sources historians can craft a dynamic interconnected narrative of modern China Previously obscured relationships come into sharp focus revealing the delicate balance of power influence and change [The Qing Dynasty and Traditional Chinese Culture](#) Richard J.

Smith, 2015-10-23 The Qing dynasty 1636 1912 a crucial bridge between traditional and modern China was remarkable for its expansiveness and cultural sophistication This engaging and insightful history of Qing political social and cultural life traces the complex interaction between the Inner Asian traditions of the Manchus who conquered China in 1644 and indigenous Chinese cultural traditions Noted historian Richard J Smith argues that the pragmatic Qing emperors presented a Chinese face to their subjects who lived south of the Great Wall and other ethnic faces particularly Manchu Mongolian Central Asian and Tibetan to subjects in other parts of their vast multicultural empire They were attracted by many aspects of Chinese culture but far from being completely sinicized as many scholars argue they were also proud of their own cultural traditions and interested in other cultures as well Setting Qing dynasty culture in historical and global perspective Smith shows how the Chinese of the era viewed the world how their outlook was expressed in their institutions material culture and customs and how China's preoccupation with order unity and harmony contributed to the civilization's remarkable cohesiveness and continuity Nuanced and wide ranging his authoritative book provides an essential introduction to late imperial Chinese culture and society **Representing Lives in China** Ihor Pidhainy, Roger Des Forges, Grace S. Fong, 2019-10-15 The

chapters in this ground breaking volume examine the complex practices of biographical writing in Ming and Qing China The

authors draw on a rich variety of sources to answer some basic questions Who were the writers of these texts and the subjects of their biographical constructions What motivated these textual productions and sustained the routes from re creations to re publications The informed and fascinating readings illuminate the enduring appeal of representing and represented lives in Chinese history Humanities ,2010 **Women in Imperial China** Bret Hinsch,2016-09-22 This accessible text offers a comprehensive survey of women s history in China from the Neolithic period through the end of the Qing dynasty in the early twentieth century Rather than providing an exhaustive chronicle of this vast subject Bret Hinsch pinpoints the themes that characterized distinct periods in Chinese women s history and delves into the perception of female identity in each era Moving beyond the traditional focus on the late imperial era Hinsch explores how gender relations have developed and changed since ancient times His chronological look at the most important female roles in every major dynasty showcases not only the constraints women faced but also their vast accomplishments throughout the millennia Hinsch s extensive use of Chinese language scholarship lends his book a fresh perspective rare among Western scholars Professors and students will find this an invaluable textbook for Chinese women s studies and an excellent supplement for courses in gender studies and Chinese history The Problem of Women in Early Modern Japan Marcia Yonemoto,2016-09-27 Early modern Japan was a military bureaucratic state governed by patriarchal and patrilineal principles and laws During this time however women had considerable power to directly affect social structure political practice and economic production This apparent contradiction between official norms and experienced realities lies at the heart of The Problem of Women in Early Modern Japan Examining prescriptive literature and instructional manuals for women as well as diaries memoirs and letters written by and about individual women from the late seventeenth century to the early nineteenth century Marcia Yonemoto explores the dynamic nature of Japanese women s lives during the early modern era **Migrating Fujianese** Guotong Li,2016-11-07 With the Fujian coast at its center this book reveals the intellectual migratory and gendered relationships that tied Fujian to the Chinese imperial domain and to its overseas networks This Fujian study also offers ways to analyze local histories of late imperial China from a more global perspective Based on a wide range of sources such as business contracts legal documents women s writings and folksongs Migrating Fujianese elucidates China s southeast coast and its migration patterns Examining this multi ethnic migrant community through the lens of ethnicity shows the complex operation of linked chain migration overseas male emigration and overland family migration by the ethnic She people and its impact on the gender relations and family strategies of the coastal people The study argues that examination of Fujianese migration through the lenses of gender and ethnicity is crucial to understanding the relationship between the flow of people and the society nourishing that flow *Gender and Chinese History* Beverly Jo Bossler,2015-06-01 Until the 1980s a common narrative about women in China had been one of victimization women had dutifully endured a patriarchal civilization for thousands of years living cloistered uneducated lives separate from the larger social and cultural world until they were

liberated by political upheavals in the twentieth century Rich scholarship on gender in China has since complicated the picture of women in Chinese society revealing the roles women have played as active agents in their families businesses and artistic communities The essays in this collection go further by assessing the ways in which the study of gender has changed our understanding of Chinese history and showing how the study of gender in China challenges our assumptions about China the past and gender itself **Marriage, Law and Gender in Revolutionary China, 1940-1960** Xiaoping Cong, 2016-08-22

Xiaoping Cong examines the social and cultural significance of Chinese revolutionary legal practice in the construction of marriage and gender relations Her book is an empirically rich investigation of the ways in which a 1943 legal dispute over an arranged marriage in a Chinese village became a legal political and cultural exemplar on the national stage This conceptually groundbreaking study revisits the Chinese Revolution and its impact on women and society by presenting a Chinese experience that cannot and should not be theorized in the framework of Western discourse Taking a cultural historical perspective Cong shows how the Chinese Revolution and its legal practices produced new discourses neologisms and cultural symbols that contained China's experience in twentieth century social movements and how revolutionary practice was sublimated into the concept of self determination an idea that bridged local experiences with the tendency of the twentieth century world and that is a revolutionary legacy for China today **Different Worlds of Discourse** Nanxiu Qian, Grace S.

Fong, Richard Joseph Smith, 2008 During the late Qing reform era 1895-1912 women for the first time in Chinese history emerged in public space in collective groups They assumed new social and educational roles and engaged in intense debates about the place of women in China's present and future These debates found expression in new media including periodicals and pictorials which not only harnessed the power of existing cultural forms but also encouraged experimentation with a variety of new literary genres and styles works increasingly produced by and for Chinese women *Different Worlds of Discourse* explores the reform period from three interrelated and comparatively neglected perspectives the construction of gender roles the development of literary genres and the emergence of new forms of print media *Fiction's Family* Ellen Widmer, 2020-10-26 At the end of the Qing dynasty works of fiction by male authors placed women in new roles *Fiction's Family* delves into the writings of one literary family from western Zhejiang whose works were emblematic of shifting attitudes toward women The mother Wang Qingdi and the father Zhan Sizeng published their poems during the second half of the nineteenth century Two of their four sons Zhan Xi and Zhan Kai wrote novels that promoted reforms in women's lives This book explores the intergenerational link as well as relations between the sons to find out how the conflicts faced by the parents may have been refigured in the novels of their sons Its central question is about the brothers' reformist attitudes Were they based on the pronouncements of political leaders Were they the result of trends in Shanghai publishing Or did they derive from Wang Qingdi's disappointment in her companionate marriage as manifested in her poems By placing one family at the center of this study Ellen Widmer illuminates the diachronic bridge between the late Qing and the period just

before it the synchronic interplay of genres during the brothers lifetimes and the interaction of Shanghai publishing with regions outside Shanghai

Sex, Power, and Slavery Gwyn Campbell, Elizabeth Elbourne, 2014-12-10 Sexual exploitation was and is a critical feature of enslavement Across many different societies slaves were considered to own neither their bodies nor their children even if many struggled to resist At the same time paradoxes abound for example in some societies to bear the children of a master was a potential route to manumission for some women Sex Power and Slavery is the first history of slavery and bondage to take sexuality seriously Twenty six authors from diverse scholarly backgrounds look at the vexed traumatic intersections of the histories of slavery and of sexuality They argue that such intersections mattered profoundly and indeed that slavery cannot be understood without adequate attention to sexuality Sex Power and Slavery brings into conversation historians of the slave trade art historians and scholars of childhood and contemporary sex trafficking The book merges work on the Atlantic world and the Indian Ocean world and enables rich comparisons and parallels between these diverse areas Contributors David Brion Davis Martin Klein Richard Hellie Abdul Sheriff Griet Vankeerberghen E Ann McDougall Matthew S Hopper Marie Rodet George La Rue Ulrike Schmieder Tara Iniss Mariana Candido James Francis Warren Johanna Ransmeier Roseline Uyanga with Marie Luise Ermisch Francesca Ann Louise Mitchell Shigeru Sato Gabeba Baderoon Charmaine Nelson Ana Lucia Araujo Brian Lewis Ronaldo Vainfas Salah Trabelsi Joost Cot Sandra Evers and Subho Basu

The Inner Quarters and Beyond, 2010-07-14 Only recently has the enormous literary output of women writers of the Ming and Qing periods 1368 1911 been rediscovered Through these valuable texts we apprehend in ways not possible earlier the complexity of women's experiences in the inner quarters and their varied responses to challenges facing state and society Writing in many genres women engaged with topics as varied as war travel illness love friendship female heroism and religion Drawing on a library of newly digitized resources this volume's eleven chapters describe analyze and theorize these materials They question previous assumptions about women's lives and abilities open up new critical space in Chinese literary history and offer new perspectives on China's culture and society This volume rewrites the history of Chinese women's literature by taking a truly interdisciplinary instead of merely multi disciplinary approach In so doing it ends up illuminating the centrality of writing women to the social political and intellectual lives of the Chinese empire from the seventeenth to the nineteenth centuries Prof Dorothy Ko Barnard College Columbia University author of *Cinderella's Sisters A Revisionist History of Footbinding* California 2005

The ^A Family Mary Jo Maynes, Ann Waltner, 2012-06-14 This book addresses the question of what world history looks like when the family is at the center of the story People have always lived in families but what that means has varied dramatically over time and across cultures The family is not a natural phenomenon it has a history Maynes and Waltner chart this history over the course of 10 000 years

Women as Writing Subjects in High Qing China

Chengjuan Sun, 2024-07-29 In what ways did Qing gentry women's concern for gender and social propriety shape their assertions of female subjectivity and agency? How did they exploit the state promotion of female virtue and Confucian morality for self fulfillment? With a focus on three of the most widely acclaimed mid-Qing women authors, this book uses both synchronic and diachronic approaches to analyze writings on conjugal love, widowhood, women's education, maternal teaching, boudoir objects, and history, illustrating their vibrant gendered revision of literati poetic convention, thus proposing an alternative analytical framework that goes beyond the rigid dichotomy of compliance versus resistance. Gender Politics at Home and Abroad

Hyaeweol Choi, 2020-07-30 Choi examines how global Christian networks facilitated the flow of ideas, people, and material culture, shaping gendered modernity in Korea.

Interfamily Tanci Writing in Nineteenth-Century China

Yu Zhang, 2017-12-13 Employing an interdisciplinary approach, this is the first monograph to frame three once widely read tanci fiction, a type of lyrical narrative from nineteenth-century China: Mengyingyuan (1843), Yuxuancao (1894), and Jingzhongzhuan (1895), as interrelated texts composed by three generations of members from one extended gentry family in South China. Based on the framework of family bonds, this book uses the three tanci works authored by a mother, her daughter, and a nephew to examine the history of how the changing aesthetics of tanci developed over China's turbulent nineteenth century. It also demonstrates how the three writers used the genre of tanci to blur the boundaries of orthodox Confucian norms in order to depict the evolving nature of gendered power relations at the dawn of China's modernity.
