The Sagrada Familia in Barcelona, Spain is a genius designer Wong sir [Frogwong], 2019-12-27 Wong sir's Trip Sagrada Familia in Barcelona Spain is a genius designer The Sagrada Familia and Atonement Temple generally referred to as the Sagrada Familia is located in Barcelona the capital of Catalonia Spain Due to the broken funds and war it has become a Catholic church that has not been completed for more than 100 years Construction of the Sagrada Familia began in 1882 because it is a Church of Atonement The source of funds mainly depends on personal donations The amount of donations directly affects the progress of the project It is expected to be completed in 2032 At that time the 170 meter high Sagrada Familia will replace the Ulm Church in Germany 161.53 meters and become the tallest church in Europe and the world The Sagrada Familia is the only building in the world that has been declared a World Heritage Site before it has been completed The

church is not a cathedral Pope Benedict XVI visited the church on November 7 2010 and sealed it as a Pontifical temple

Sagrada Familia designer Gaudi has a famous view Straight lines belong to humans and curves belong to God A covered rectangular cloister in the Sagrada Familia surrounds the entire church and connects the three entrances There are no right angles inside or outside the church and few straight lines All the pillars door frames window frames and corner lines are curved A holy basin in the church for washing hands is also designed with a graceful curve like a skirt A major feature of Gaudi is that he likes to use Spanish porcelain glass enamel and natural stone shatter them and reassemble them and give them a strong sense of visual art through color contrast and exaggerated modeling In appearance the building looks like a huge stone termite nest a huge vegetable field a gingerbread house baked by the world's most evil witch or a creepy forest This magnificent building took shape after World War I and since then its design philosophy has puzzled and puzzled countless architects critics and historians The church was originally designed by architect Villar It is a towering and unique building After Villar resigned he was publicly recruited and taken over by the unnamed Gaudi at that time Gaudi is famous for his Sagrada Familia and is considered to be Spain's most outstanding architect in the twentieth century Most of his representative works have been settled in Barcelona Seven of them have been selected as world cultural heritage and the Sagrada Familia is a masterpiece Religious book dealer Boca Beria was the founder of the Saint Joseph Revered Church and during its heyday the number of believers reached 600 000 Members of the association bought a plot of land measuring 130 meters by 120 meters and generously funded the construction of the Sagrada Familia After visiting the Vatican in 1872 Boca Beria returned to Spain from Italy with the intention of building a church The church was funded by a religious group and designed by architect Villar It is a standard form Gothic Revival building Construction began on March 19 1882 On March 18 1883 the church was built only as an underground sanctuary Villar resigned because of broken funds for construction Gaudi 31 took over the design work Gaudi was born in Reus a small town not far from Barcelona in 1852 For generations he was a blacksmith for a pot Gaudi worked as a blacksmith learned woodworking cast iron and molding In 1873 Gaudi was admitted to the Barcelona School of Architecture and in 1878 he received a bachelor's degree in architecture His graduation project was to design an auditorium for a university and the plan caused a lot of controversy When the dean issued him a graduation certificate he said I don't know if we will issue the certificate to a genius or a lunatic We have to wait for time to prove everything The exterior of the Sagrada Familia has Gothic characteristics and Gaudi pointed out The Gothic frame has no vitality This structure is like an overwhelming skeleton It not only fails to connect the various parts of the body in harmony but instead You need crutches everywhere Gaudi completely readjusted the plan and changed the originally designed Gothic church into a Catalan modernist building Gaudi began work in 1883 and was not appointed as an architect until 1884 The Sagrada Familia was planned from the beginning as a main church sized building with extremely complex architectural structures and decorations including two side porches a semicircular apse with seven sacrifices and a cloister multiple

steeple and In and out facades each facade has a different structure and decoration The shape of the Sagrada Familia is a Latin cross with five aisles with the central nave s vault as high as 45 meters and the adjacent nave s vault as high as 30 meters There is a gap on the apse floor to see the basement below Forty three years of Gaudi s life was spent on the design and construction of this church After 1925 he moved to the church site to live and design the church wholeheartedly During the construction process Gaud continued to modify the design until the end of his life His style experienced roughly three stages the Moorish style of the Orientalism in the early period the neo Geum and modernism style in the middle period and the naturalism in the later period Gaudi designed the church based on animal and plant forms with a strong natural color showing each scene in the Bible one by one making the church a Catholic picture book The Y shaped columns of the Sagrada Familia gradually tapered from the bottom up like the old tree roots and finally turned into branches and trees to reach the zenith forming a wonderful combination with the zenith pattern like watching a colorful moment through a kaleidoscope With twelve constellations on each branch Gaudi hopes that anyone can find their faith here In addition to the branches that support its load the changing surface is the result of the intersection of various geometries When the pillar rises it forms an octagonal square base then a sixteen sided shape and finally turns into a circle This effect is the result of the three dimensional intersection of the spiral columns Gaudi s original design had a total of eighteen spires from low to high representing the Twelve Apostles the Virgin Mary the authors of the four Great Gospels Matthew Mark Luke John and the highest Jesus Christ Eight minarets were completed in 2010 and after all the spires are completed the Sagrada Familia will become the tallest church building in the world Twelve towers representing twelve disciples ranging from 98 4 meters to 117 meters in height four towers representing the Gospel authors at 120 meters towers representing the Virgin Mary at 120 meters and towers representing Jesus Christ at 170 It s 180 meters below Montjuic in Barcelona Gaud believes that his creativity should not exceed that of God Representing the authors of the four Gospels of the Bible the minarets are engraved with statues representing them winged bull Luke angel Matthew eagle John winged lion Mark The lower minaret is engraved with the host of the communion with wheat sheaf and the communion cup with grape bunches representing the communion ceremony Gaudi plans to place the tubular bell in a steeple driven by wind to transmit sound into the church Gaudi conducted a series of acoustic studies in order to obtain the appropriate acoustic results but only one clock is currently in place The church was long and unfinished and Gaudi said My client is not in a hurry What he refers to as a customer is God When Gaudi died in 1926 the church was about 15% to 25% complete On the afternoon of June 7 1926 Gaudi completed the work of the day worshipped from the Sagrada Familia to the church in the city center and was hit by a tram His shirt was worn out and the driver thought he was a tramp and refused to send him to the city hospital A passerby later sent him to the Holy Cross Hospital and later found that the homeless man was Gaudi He wanted to send him to a better place for resettlement Gaudi refused He said This is my place Three days later Gaudi died All the people in Barcelona were empty and

the whole city came out to mourn him After Gaudi's death construction work continued under the guidance of designer Grasse It was interrupted by the Spanish Civil War in 1936 and construction began again in 1954 During the war the Sagrada Familia was looted by Catalan anarchists destroying part of the unfinished cathedral and Gaudi's models and workshops Most of Gaudi's authenticity was damaged but Gaudi's tomb was intact Although the anarchists hated General Franco and the Catholic Church they knew very well that Gaudi was a saint The Sagrada Familia has three magnificent facades the birth facade in the east the crucifixion facade in the west and the glorious facade in the south The birth facade was built before the interruption of construction work in 1935 The facade is entitled the birth of Christ The sculpture on the wall shows the story of the birth of virgin Mary to the growth of Christ because it welcomes the celebration of Christ's birth The crucifixion was named after the death of Christ According to Gaudi's design in 1917 construction began in 1954 and was completed in 1976 The facade includes Jesus Christ who was whipped Jesus Christ on the cross It attracted attention with its simple sloppy tortured characters To express suffering it designed modern angular and angular lines which resembled nerves that were strained by pain With ribs The sixteen sudokus on the crucifix facade whether horizontally vertically or obliquely add up to thirty three representing the age of Jesus death The glorious facade which began construction in 2002 is the largest and most memorable of the three facades representing Jesus Christ's ascension Describe a series of scenes such as hell purgatory and other elements including the Seven Deadly Sins and the Seven Virtues The four towers on the glorious facade are all hollowed out The light can fully fall through the colored windows of the church The stained glass is arranged strictly according to progressive colors and the lighter it is the more it goes up In 2013 the architect Olle was the fourth generation person in charge Three facades have been constructed the nativity facade the crucifixion facade and the honor facade Eighteen towers have been built with four clock towers on the nativity facade four clock towers on the crucifixion and ten towers owed of which six towers have not yet started construction and the entire building is almost half completed Computer aided design technology is used to accelerate construction Current technology allows stone to be processed in CNC machine tools In the 20th century stone was carved by hand On July 24 1969 the Sagrada Familia was registered as a Spanish cultural property under the name Holy Family Atonement Hall In mid 2010 the nave of the Sagrada Familia was capped and an organ was installed on the altar This unfinished church can begin religious activities To overcome the unique acoustic challenges posed by the church's architecture and huge size the church has several additional organs installed at different locations which can be played independently or simultaneously Pope Benedict XVI ordained the Sagrada Familia in front of 6 500 worshippers on November 7 2010 Outside the church more than 50 000 people attended the orthodox mass and more than a hundred bishops and three hundred priests attended the sacrament On April 19 2011 an arsonist set fire to the sacrifice collection Tourists and construction workers were to evacuate The sacrifice collection was damaged The fire was brought under control 45 minutes later Beginning in 2013 Spanish high speed rail trains travel through an underground tunnel next

to the Sagrada Familia in central Barcelona In October 2015 70% of the construction was completed entering the final stage that is raising six huge spires Beginning July 9 2017 the Sagrada Familia will hold an international mass ritual until the church is full on Sunday or 9 AM and the Mass will occasionally be celebrated at other times only to be invited to attend On June 7 2019 the Sagrada Familia was granted a legal construction permit by the Barcelona City Council and construction began in 1882 137 years later The minaret and most of the church structure will be completed in 2026 the centennial of Gaudi s death and the decorative elements will be completed in 2030 or 2032 Gaudi saw the Sagrada Familia as a Gothic ancient Greek temple in the Mediterranean He was once called Dante in the history of architecture The construction of the Sagrada Familia is protracted The main reason is that there is no special funding for the construction cost all of which come from ticket income and donations At the end of Gaudi s lifetime he also had to raise funds for the Sagrada Familia project Some relatives and friends later turned away when they saw him He donated all his property to the Sagrada Familia before his death In 1998 Gaudi was sealed as a saint by the Cardinal The Sagrada Familia has a budget of 25 million euros per year Currently the largest funder of the Sagrada Familia is from Japan Through sponsorship projects a large number of young Japanese architects are sent for internships Sagrada Familia Visitor admission is 15 20 Euros Address Carrer de Mallorca 401 Barcelona Transportation Subway Lines 2 and 5 and get off at Shengjatang Station **Gaudi Unseen** Mark Burry,2007 For the lay person Antoni Gaudi is known as the creator of fairy tale architecture which not only fascinates in its completed form but also as a fragment like his best known work the church of Sagrada Familia in Barcelona which attracts countless visitors every year **The Temple of the Sagrada Familia Completed** Toni Meca,2002 Collection of 33 virtual reality videos *Antoni Gaudí: Casa Bellesguard as the Key to His Symbolism (eBook)* Carles Rius,2014-10-16 The fascination that the work of Gaud arouses is due in large part to the enigmatic symbolism of its forms full of mystical and philosophical significance that is sometimes difficult for observers to perceive but which becomes clearer when analysed in the light of certain very influential currents of ideas in the art of the nineteenth and early twentieth centuries Based on the study of Casa Bellesguard and the Temple of the Sagrada Fam lia this book opens up new avenues for interpreting Gaud s symbolism discovering the ties existing between the work of the Catalan architect and that of the German painter Peter Lenz which at the same time is rooted in the early Romantic period Aimed at both specialists and the general public Antoni Gaud Casa Bellesguard as the Key to His Symbolism not only broadens the knowledge and the documentation of Gaud s creative universe but also contributes to enriching our perception of his work *The Expiatory Temple of La Sagrada Familia* Carlos Giordano,2005 *Tailor Made Concrete Structures* Joost C. Walraven,Dick Stoelhorst,2008-05-01 In recent years knowledge of concrete and concrete structures has increased as has its applications New types of concrete challenged scientists and engineers and ecological constraints encouraged the implementation of life cycle design of concrete structures moving the focus more and more to maintenance and uprating of structures And since bui **Proceedings fib Symposium in**

The Temple Of The Sagrada Familia Introduction

In the digital age, access to information has become easier than ever before. The ability to download The Temple Of The Sagrada Familia has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download The Temple Of The Sagrada Familia has opened up a world of possibilities. Downloading The Temple Of The Sagrada Familia provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading The Temple Of The Sagrada Familia has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download The Temple Of The Sagrada Familia. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading The Temple Of The Sagrada Familia. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading The Temple Of The Sagrada Familia, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download The Temple Of The Sagrada Familia has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.
