Bande dessinée, Books and the Gentrification of Mass Culture, 1964-1975* Sylvain Lesage, 2023-01-01 In France comics are commonly referred to as the ninth art What does it mean to see comics as art This book looks at the singular status of comics in the French cultural landscape *Bandes dessinées* have long been published in French newspapers and magazines In the early 1960s a new standard format emerged large hardback books called albums Albums played a key role in the emergence of the ninth art and its acceptance among other forms of literary narrative From *Barbarella* in 1964 to *La Ballade de la mer salée* in 1975 from *Asterix* and its million copies to *Tintin* and its screen versions within the space of just a few years

the comics landscape underwent a deep transformation The album opened up new ways of creating distributing and reading bandes dessin es This shift upended the market transformed readership initiated new transmedia adaptations generated critical discourse and gave birth to new kinds of comics fandom These transformations are analysed through a series of case studies each focusing on a noteworthy album By retracing the publishing and critical history of these classic bandes dessin es this book questions the blind spots of a canon based on the album format and uncovers the legitimisation processes that turned bande dessin e into the ninth art The French Comics Theory Reader Ann Miller, Bart Beaty, 2014-06-24 Key French language theoretical texts on comics translated into English for the first time The French Comics Theory Reader presents a collection of key theoretical texts on comics spanning a period from the 1960s to the 2010s written in French and never before translated into English The publication brings a distinctive set of authors together uniting theoretical scholars artists journalists and comics critics Readers will gain access to important debates that have taken place among major French language comics scholars including Thierry Groensteen Beno t Peeters Jan Baetens and Pierre Fresnault Deruelle over the past fifty years The collection covers a broad range of approaches to the medium including historical formal sociological philosophical and psychoanalytic A general introduction provides an overall context and in addition each of the four thematic sections is prefaced by a brief summary of each text and an explanation of how they have influenced later work The translations are faithful to the originals while reading clearly in English and where necessary cultural references are clarified
