prediction of the next flood is backed by errors in time measured by Mayans and Nostradamus Once a person is elevated to the vortex in quantum cone with zero weight gravity and when time stops in quantum reality then he or she will be able to be awarded with all possibilities to create or destroy The writer imitates the out of the box thinking of God but he is not comparing himself to cosmic intelligence He just uses the quantum energy in form of dark and light energy he calls Satan and God for convenience The examples are powerful and convincing The reader should not just observe the author's human encounters to get to quick conclusions It is a manual of how to think without fear Once the fear is eliminated the mind is open to deep into subconsciousness and to build the awareness where all possibilities are unrestricted and to rise to the sixth cosmic dimension God

Danny Sardano, newly elected Sheriff of Tuolumne County, has achieved his lifelong goal. As a third-generation resident in this rural community in the majestic Sierra Nevada Mountains, his life seems perfect. Then a serial killer decides to move from his hunting grounds in Tennessee to Sardano's jurisdiction, a move that turns this normally peaceful tourist destination into Danny's worst nightmare. The serial killer is known as the Face Collector and preys on women with auburn hair. Former FBI agent Leonard Baskem's life has been upturned in the hunt for this mysterious killer. He has no doubt that the Face Collector is still out there walking around a free man, but many twists and turns lie in wait as he searches for the old murderer and a kid protégé. The new sheriff decides he can't solve this case with the resources the county has available, so he calls on an old friend from the FBI. Now a horror decades in the making descends on a small town. Who will come out the victor in a battle already scripted and crafted by the murderer?
