Federal Register ,1981-03-25 **Innovation Clusters and Interregional Competition** Johannes Bröcker,Dirk Dohse,Rüdiger Soltwedel,2012-11-02 Empirical evidence about cluster building the emphasis of new growth theory on innovation the recent interest in economic geography and the high pressure on politicians to establish favourable conditions for attracting dynamic industries have triggered a wave of research during the last decade trying to understand more deeply why how and where clusters emerge and what factors determine their respective success or failure In this volume the world's leading experts contribute to our understanding of regional innovation cluster formation and the factors influencing regional productivity and innovative performance It provides a timely and comprehensive picture on innovation location networks and clusters as important means in an environment of intensifying interregional competition Race and the Making of the Mormon People Max Perry Mueller,2017-08-08 The nineteenth century history of the Church of Jesus Christ of Latter day Saints Max Perry Mueller argues illuminates the role that religion played in forming the notion of three original American races red black and white for Mormons and others in the early American Republic Recovering the voices of a handful of black

and Native American Mormons who resolutely wrote themselves into the Mormon archive Mueller threads together historical experience and Mormon scriptural interpretations He finds that the Book of Mormon is key to understanding how early followers reflected but also departed from antebellum conceptions of race as biblically and biologically predetermined Mormon theology and policy both challenged and reaffirmed the essentialist nature of the racialized American experience The Book of Mormon presented its believers with a radical worldview proclaiming that all schisms within the human family were anathematic to God s design That said church founders were not racial egalitarians They promoted whiteness as an aspirational racial identity that nonwhites could achieve through conversion to Mormonism Mueller also shows how on a broader level scripture and history may become mutually constituted For the Mormons that process shaped a religious movement in perpetual tension between its racist and universalist impulses during an era before the concept of race was secularized
