Islamic Banking in Indonesia Rifki Ismal, 2013-02-22 A comprehensive overview of key developments in Islamic banking. In *Islamic Banking in Indonesia*, renowned economist Dr Rifki Ismal explores current issues in Islamic banking and financial products with a particular focus on the danger of liquidity risk in Indonesia. It approaches liquidity risk from the conventional perspective of international banking standards as well as from the Islamic banking perspective. Dr Ismal also covers the issues of asset liability, balancing liquidity risk, index organizational structures for managing liquidity, industrial analysis, withdrawal risk, bankruptcy risk, moral hazard risk and market risk. Compiling all the latest academic research on liquidity risk and other risks in Islamic banking, the book provides a theoretical foundation for managing risk that will be highly useful for researchers on Islamic banking and practitioners and academics. Written by a renowned expert on Islamic banking who works on monetary policy at the central bank of Indonesia, it covers the latest developments in Islamic banking, particularly liquidity risk for a rapidly expanding market. Ideal for European and American readers in addition to Asian readers who need a fuller understanding of Islamic banking institutions, markets and products. With the latest academic research and the expertise of a leading practitioner in Islamic banking, this book offers in-depth coverage of the most pressing issues in the field.

Accessibility Analysis and Transport Planning Karst T. Geurs, Kevin J. Krizek, Aura Reggiani, 2012-01-01 Accessibility is a concept central to integrated transport and land use planning. The goal of improving accessibility for all modes for all people has made its way into mainstream transport policy and planning in communities worldwide. This unique book introduces new accessibility approaches to transport planning across Europe and the United States. The expert contributors present advanced interdisciplinary approaches in accessibility research and modelling with best practices in accessibility planning and evaluation to better support integrated transport and land use policy making. This book will prove an absorbing read for scholars, researchers and students working on accessibility issues across different academic fields including transport, geography, spatial economics and social science. Transport and urban planners will also find the book to be an invaluable reference tool.
