These issues comprise several themes such as materials development for teachers' professional growth, undergraduate students' critical thinking skills revealed through in-class debates on controversial issues in an EFL classroom, the enhancement of writing through cooperative learning, the improvement of oral fluency through vocabulary learning activities based on collocations, materials development for learning English for specific purposes, development of task-based vocabulary to enhance reading comprehension, the process approach to develop argumentative skills, meaningful photographs to engage students in oral activities, and fostering reading strategies through the use of authentic materials. This book is divided into nine chapters. Each chapter explains the corresponding research process undergone by the students. It describes their theoretical considerations, instructional and research designs, data analysis and findings, and conclusions in relation to their concern.
