Wahrheit Aurmoralischen Friedrich Nietzsche German:

The Oxford Handbook of German Philosophy in the Nineteenth Century Michael N. Forster, Kristin Gjesdal, 2015-02-05
The Oxford Handbook of German Philosophy in the Nineteenth Century is the first collective critical study of this important period in intellectual history. The volume is divided into four parts. The first part explores individual philosophers including Fichte, Hegel, Schopenhauer, Marx, and Nietzsche among other great thinkers of the period. The second addresses key philosophical movements: Idealism, Romanticism, Neo-Kantianism, and Existentialism. The essays in the third part engage with different areas of philosophy that received particular attention at this time, including philosophy of nature, philosophy of mind, philosophy of language, philosophy of history, and hermeneutics. Finally, the contributors turn to discuss central philosophical topics from skepticism to materialism, from dialectics to ideas of historical and cultural Otherness, and from the reception of antiquity to atheism. Written by a team of leading experts, this Handbook will be an essential resource for anyone working in the area and will lead the direction of future research.

The Longing for Myth in Germany George S. Williamson, 2004-07
Since the dawn of Romanticism, artists and intellectuals in Germany have maintained an abiding interest in the gods and myths of antiquity while calling for a new mythology suitable to the modern age. In this study, George S. Williamson examines the factors that gave rise to this distinct and profound longing for myth. In doing so, he demonstrates the entanglement of aesthetic and philosophical ambitions in Germany with some of the major religious conflicts of the nineteenth century. Through readings of key intellectuals ranging from Herder and Schelling to Wagner and Nietzsche, Williamson highlights three crucial factors in the emergence of the German engagement with myth: the tradition of Philhellenism, neohumanism, a critique of contemporary aesthetic and public life as dominated by private interests, and a rejection of the Bible by many Protestant scholars as the product of a foreign Oriental culture. According to Williamson, the discourse on myth in Germany remained bound up with problems of Protestant theology and confessional conflict through the nineteenth century and beyond. A compelling adventure in intellectual history, this study uncovers the foundations of Germany's fascination with myth and its enduring cultural legacy.

Nietzsche's Engagements with Kant and the Kantian Legacy Marco Brusotti, Herman Siemens, João Constâncio, Tom Bailey, 2017-02-23
Nietzsche has often been considered a thinker independent of the philosophy of his time and radically opposed to the concerns and concepts of modern and contemporary philosophy. But there is an increasing awareness of his sophisticated engagements with his contemporaries and of his philosophy's rich potential for debates with modern and contemporary thinkers. Nietzsche's Engagements with Kant and the Kantian Legacy explores a significant field for such engagements. Kant and Kantianism. Bringing together an international team of established Nietzsche scholars who have done extensive work in Kant, contributors include both senior scholars and young upcoming researchers from a broad range of countries and traditions. Working from the basis that Nietzsche is better understood as thinking with and against Kant and the Kantian legacy, they examine Nietzsche's explicit and implicit treatments of Kant, Kantians, and

Kantian concepts as well as the philosophical issues that they raise for both Nietzschean and Kantian philosophy Divided into three volumes the focus is on specific areas and texts of Kant's philosophy Nietzsche Kant and the Problem of Metaphysics Nietzsche and Kantian Ethics Nietzsche and Kant on Aesthetics and Anthropology Each volume draws extensively on the flourishing recent literature from both analytic and continental traditions in English German and other languages By responding to scholarly interest in the critical relations between Nietzsche and Kant this series of volumes presents the first systematic study of the pairing of two major European thinkers from the modern period **Metaphysics Without Truth** Stefan Lorenz Sorgner,1999 **The Linguistic Moment** Joseph Hillis Miller,2014-07-14 This series of readings explores the functioning of moments in poems when the medium language becomes an issue Originally published in 1985 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **An Aesthetic Critique of Digital Enhancement** Sarah Bianchi,2023-09-11 The socio cultural phenomenon of digital enhancement that is the attempt to perfect the subject's offline life by means of digital media seduces people into participating in digitalization Subjects paradoxically want to participate in digital change even though it is well known that digitalization also impairs their freedom and privacy and this book investigates both the freedom impairing and the freedom enhancing aspects of digital enhancement Sarah Bianchi provides an empirically informed critical aesthetic diagnosis a perspective that makes the overlooked affect and power sensitive Janus face of subjectivity in digital enhancement perceivable the subject's desire to be governed by the logic of perfection that is the heart of digital enhancement and their simultaneous desire for self government To this end An Aesthetic Critique of Digital Enhancement Government of the Self and Desire makes Foucault's history of the present in its Nietzschean genealogy productive for contemporary critical thought on digital enhancement Through genealogical critique this approach provides the needed semantics to question the costs of our digital present and to conceptualize how an enlightened agency might be critically constructed *Translation and the Intersection of Texts, Contexts and Politics* Mohammed Albakry,2017-07-27 This book analyzes the impact of historical political and sociocultural contexts on the reading rewriting and translating of texts The authors base their arguments on their experiences of translating or researching different text types taking in fiction short stories memoirs religious texts scientific treatises and news reports from a variety of different languages and cultural traditions In doing so they cover a wide range of contexts and time periods including Early Modern Europe post 1848 Switzerland nineteenth century Portugal Egypt in the early twentieth century under British colonial rule Spain under Franco's dictatorship and contemporary Peru and China They also consider the theoretical and pedagogical implications of their
