## **World Architects In Their Twenties:**

**Japan Houses** Marcia Iwatate, 2012-05-01 This Japanese architecture and design book is a wonderful source of new styles and ideas for those looking to add a distinctively Zen flair to their home. Limited spaces, unlimited technology, a tradition of innovation and sheer Japanese panache have combined to inspire the 26 stunning homes featured in *Japan Houses*. Conceived by 24 of Japan's leading architects and designers, each of the houses forecasts and defines a new trend in residential architecture, reinventing the meaning and use of space, material and function. Traditional lifestyles are challenged; domestic functions such as cooking and entertaining are moved out of the house into the public domain while laptops bring work back in. Zen minimalist is juxtaposed with comfortable opulence. Time-honored workmanship is coupled with exciting new materials, resulting in a recognizable style that belongs to Japan, reflecting its culture and craftsmanship while at the same time being avant garde and international. The spirit of each of these astonishing houses is captured in beautiful photographs, plans and commentary.

*Building the Modern World* Michael H. Hodges, 2018-04-16 A photographically rich biography of protean architect Albert Kahn. *Building the Modern World: Albert Kahn in Detroit* by Michael H. Hodges tells the story of the German Jewish immigrant who rose from poverty to become one of the most influential architects of the twentieth century. Kahn's buildings not only define downtown Detroit but his early car factories for Packard Motor and Ford revolutionized the course of industry and architecture alike. Employing archival sources unavailable to previous biographers, *Building the Modern World* follows Kahn from his apprenticeship at age thirteen with a prominent Detroit architecture firm to his death. With material gleaned from two significant Kahn archives, the University of Michigan's Bentley Historical Library and the Archives of American Art at the Smithsonian Institution, Hodges paints the most complete picture yet of Kahn's remarkable rise. Special emphasis is devoted to his influence on architectural modernists, his relationship with Henry Ford, his intervention to save the Diego Rivera murals at the Detroit Institute of Arts, unreported until now, and his work laying down the industrial backbone for the Soviet Union in 1929-31 as consulting architect for the first Five Year Plan. Kahn's ascent from poverty, his outsized influence on both industry and architecture, and his proximity to epochal world events make his life story a tableau of America's rise to power. Historic photographs as well as striking contemporary shots of Kahn buildings enliven and inform the text. Anyone interested in architecture, architectural history or the history of Detroit will relish this stunning work.

the Pendulum to Become Rich     Humanities ,1999     Skyscrapers George H. Douglas,2004-08-19 This history of skyscrapers examines how these tall buildings affected the cityscape and the people who worked in lived in and visited them Much of the focus is rightly on the architects who had the vision to design and build America s skyscrapers but attention is also given to the steelworkers who built them the financiers who put up the money and the daredevils who attempt to conquer them in some inexplicable pursuit of fame The impact of the skyscraper on popular culture particularly film and literature is also explored     The Bauhaus and America Margret Kentgens-Craig,2001 After the Bauhaus s closing in 1933 many of its protagonists movd to the United States where their acceptance had to be cultivated In this book Margret Kentgens Craig shows that the fame of the Bauhaus in America was the result not only of the inherent qualities of its concepts and products but also of a unique congruence of cultural supply and demand of a consistent flow of information and of fine tuned marketing Thus the history of the American reception of the Bauhaus in the 1920s and 1930s foreshadows the paterns of fame making that became typical of the post World War II art world BOOK JACKET     **Oppositions Reader** K.
