Transitions Pittsburg State University. Office of Admission, 2003* Building Transfer Student Pathways for College and Career Success Sonya Joseph, Mark Allen Poisel, 2018-10-04 Published in partnership with the National Institute for the Study of Transfer Students Analysis of bachelor s degree completion suggests that only about a third of college graduates attend a single institution from start to finish More than one quarter earn college credits from three or more schools before completing a degree For most these student defined pathways lead to increased time to degree and higher costs Many will simply drop out long before crossing the finish line Ensuring college completion and success requires an understanding of the evolving nature of transfer transitions and a system wide approach that reaches beyond two year and four year institutions to include high schools participating in dual enrollment programs and military college initiatives A new edited collection offers insight into institutional and statewide partnerships that create clearly defined pathways to college graduation and career success for all students **Examining the Landscape of Transfer Support** Catherine
