Internet Dating Maurice Dean,2011-01-27 Why Men Cheat is intended to give its readers a realistic look into dating and relationships from an observation standpoint distinct from any book of its kind Unlike doing research where an author may

interview several single people or a few couples with a questionnaire to get their perspective on dating longevity and infidelity Why Men Cheat is based on unscripted access and full disclosure based on the normal day to day interaction with would be friends family and coworkers My observation has been the type of fly on the wall access that we often after the fact wish we could have had to better make an assessment of a certain situation Rather than interviewing a couple or setting up a night to go out on the town to research the behavior of the person being interviewed as most people do in their research I have had undetected interaction and surveillance of the behavior and true intentions of friends and strangers because I too was part of the dating environment I have maintained and outside looking in perspective on many relationships and marriages throughout the years I have witnessed firsthand the start of romance for many relationships but unfortunately been around to see several of those bonds deteriorate over time because of neglect or infidelity My advice although sometimes not favorable to what women really want to hear as they confide in me is unbiased and based on what men really think
