The Schools We Need E.D. Hirsch, Jr.,2010-02-17 This paperback edition with a new introduction offers a powerful compelling and unassailable argument for reforming America s schooling methods and ideas by one of America s most important educators and author of the bestselling Cultural Literacy For over fifty years American schools have operated under the assumption that challenging children academically is unnatural for them that teachers do not need to know the subjects they teach that the learning process should be emphasized over the facts taught All of this is tragically wrong Renowned educator and author E D Hirsch Jr argues that by disdaining content based curricula while favoring abstract and discredited theories of how a child learns the ideas uniformly taught by our schools have done terrible harm to America s students Instead of preparing our children for the highly competitive information based economy in which we now live our schools practices have severely curtailed their ability
