The Scene of Violence Alison

Young,2009-12-04 A crucial question in the analysis of legal practices concerns the processes of identification with in and as law a question of how and by what route law achieves its ends While it is conventional to interpret the practices of law

through the institutional sources of the legal tradition The Scene of Violence considers how law and legal practices figure in the cultural field and specifically in film

Sex, Culpability, and the Defence of Provocation Danielle Tyson, 2013 The partial defence of provocation is one of the most controversial doctrines within the criminal law It has now been abolished in a number of international jurisdictions Addressing the trajectory of debates about reform of the provocation defence across different jurisdictions *Sex Culpability and the Defence of Provocation* considers the construction and representation of subjectivity and sexual difference in legal narrations of intimate partner homicide Undeniably the most vexing exculpatory cultural narrative of our times is that of a woman asking for it This book explores how the process of judgment in a criminal trial involves not only the drawing of inferences from the facts of a particular case but also operates to deliver a narrative Law it is argued constructs a narrative of how the female body incites male violence And pursuing an approach that is informed by socio legal studies literary theory and feminist theories of the body *Sex Culpability and the Defence of Provocation* considers how this narrative is constructed via a range of discursive practices that position woman as a threat to masculine norms of propriety and autonomy Once we have a clear understanding of the significance of narrative in legal decision making we can then formulate textual strategies of resistance to the violence of law's victim blaming narratives by rewriting them

Visualizing Law and Authority Leif Dahlberg, 2012-12-06 The volume *Visualizing Law and Authority Essays on Legal Aesthetics* brings together revised papers from the international conference *Law and the Image* held in Stockholm 24-25 September 2010 The participants contributors belong to the disciplines of Art history Cultural studies Literary and Media studies and Law The contributions discuss the complex relations between law media and visual phenomena The common theme of the essays consists in an examination of the scopic field and of regimes of visibility in phenomenological terms arguing that law constitutes a cognitive and aesthetic field of normative world making Rather than merely inverting Shelley's dictum that the poets are the unacknowledged legislators of the world

the essays argue in different ways for the necessity to develop a legal aesthetics The most immediate way of pursuing such a legal aesthetics consists in examining law itself as an aesthetic object for instance the power of law to produce icons in the sense of unreadable texts or textiles Martin Kayman Gary Watt Several essays focus on the way that visual art and media can be used to constitute and represent political power but also to question it and to put it into question Chiara Battisti Leif Dahlberg Elina Druker Sidia Fiorato Paul Raffield Other essays investigate legal structures inherent in the artwork and the artworld itself Ari Hirvonen Max Liljefors Christine Poggi Karen Margrethe Simonsen Finally there are two essays focusing on the use of images and imagery in the legal process explicitly arguing for the need of a legal aesthetics Daniela Carpi Richard Sherwin Although diverse the individual essays are interconnected with each other in fruitful and critical ways making both explicit and implicit references to each other

From Civil to Human Rights Helle Porsdam, 2009-01-01 Helle Porsdam's new book is a readable and

perceptive analysis of European and American perceptions of essential human rights and their roots in national and regional cultures Professor Porsdam traces the notions of civil political social and economic interests as rights protected and implemented by law on both sides of the Atlantic From Civil to Human Rights is a must read for Europeans Americans and everyone else who wants to learn more about the institutions values hopes and dreams that bring us together and hold us apart at the beginning of the 21st century Peter L Murray Harvard Law School Cambridge US Is there a special human rights narrative emerging from the chastened soul of post war Europe What lies ahead for that great but shattered community Helle Porsdam a leader in the related fields of human rights and humane letters bids fair to answer these and other pressing questions Along the way her highly nuanced intellect addresses the frustrating differences among those contentious first cousins Europe and the United States The result is a wide ranging richly informed inquiry about Europe s rise from the ashes and the choices it must make to inspire rather than repulse the world around it Richard Weisberg Cardozo Law School New York US Europeans have attempted for some time to develop a human rights talk and now European intellectuals are talking about the need to construct European narratives This book illustrates that these narratives will emphasize a political and cultural vision for a multi ethnic and more cosmopolitan Europe The narratives evolve around human rights partly in the hope that they might function as a cultural glue in an increasingly multi ethnic Europe and partly because they are intimately connected with that part of enlightenment thinking that sought to promote democracy and the rule of law Helle Porsdam discusses the development of human rights as a discourse of atonement for Europeans a discourse which has the potential to become a shared transatlantic discourse Using an interdisciplinary approach this book will be an invaluable research tool for postgraduate students and scholars within the fields of law history political science and international relations Bruno Latour Kyle McGee, 2014-06-23 The first extended study of Bruno Latour s legal theory this book presents a critical reconstruction of the whole of Latour s oeuvre to date from Laboratory Life to An Inquiry into the Modes of Existence Based on the powerful insights into normative effects that actor network theory makes possible the book advances a new theory of legal normativity and the force of law rethinking Latour s work on technology the image and referential scientific inscriptions among others and placing them within the ambit of legality The book also captures and deepens the contrast between the modern legal institution and the value of law as a mode of existence and provides a fulsome theoretical account of legal veridiction Throughout Latour s thought is put into dialogue with important progenitors and adversaries as well as historical and contemporary strands of legal and political philosophy But the thread of legality is not confined to Latour s reflections on the making of law rather it cuts through the whole of his highly diverse body of work The empire of mononaturalism augured by modern philosophies of science is thoroughly juridical as such the actor network theory that promises to undo that empire by freeing the value of the sciences from its epistemological clutches is unthinkable without the device of the trial and the descriptive semiotics of normativity that sustain ANT The democratization of the sciences and the vibrancy of ecologized

politics that become possible once the bifurcation of nature into essential primary and disposable secondary qualities is disabled and once the modern Constitution is called into doubt also have important legal dimensions that have gone largely unexamined Bruno Latour *The Normativity of Networks* remedies this and other omissions evaluating Latour's thought about law while carrying it in striking new directions This book introduces legal scholars and students to the thought of the philosopher and sociologist Bruno Latour whilst also presenting a critical analysis of his work in and around law This interdisciplinary study will be of interest to those researching in Law Philosophy and Sociology E-Governance and Civic Engagement: Factors and Determinants of E-Democracy Manoharan, Aroon, Holzer, Marc, 2011-10-31 This book examines how e government facilitates online public reporting two way communication and debate online citizen participation in decision making and citizen satisfaction with e governance Provided by publisher Routledge Handbook of Socio-Legal Theory and Methods Naomi Creutzfeldt, Marc Mason, Kirsten McConnachie, 2019-08-13 Drawing on a range of approaches from the social sciences and humanities this handbook explores theoretical and empirical perspectives that address the articulation of law in society and the social character of the rule of law The vast field of socio legal studies provides multiple lenses through which law can be considered Rather than seeking to define the field of socio legal studies this book takes up the experiences of researchers within the field First hand accounts of socio legal research projects allow the reader to engage with diverse theoretical and methodological approaches within this fluid interdisciplinary area The book provides a rich resource for those interested in deepening their understanding of the variety of theories and methods available when law is studied in its broadest social context as well as setting those within the history of the socio legal movement The chapters consider multiple disciplinary lenses including feminism anthropology and sociology as well as a variety of methodologies including narrative visual and spatial psychological economic and epidemiological approaches Moreover these are applied in a range of substantive contexts such as online hate speech environmental law biotechnology research in post conflict situations race and LGBT lawyers The handbook brings together younger contributors and some of the best known names in the socio legal field It offers a fresh perspective on the past present and future of sociolegal studies that will appeal to students and scholars with relevant interests in a range of subjects including law sociology and politics Chapter 7 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license **The CSI Effect** Michele Byers, Val Marie Johnson, 2009-01-01 The CSI Effect Television Crime and Governance demonstrates that CSI's appeal cannot be disentangled from its production as a televisual text or the broader discourses and practices that circulate within our social landscape This groundbreaking interdisciplinary collection bridges the gap between the study of popular culture media and the study of crime and fosters the development of a new set of theoretical languages in which the mediated spectacle of crime and criminalization can be carefully considered *Ways of Remembering: Volume 1* Oishik Sircar, 2024-05-31 Ways of

Remembering tells a story about the relationship between secular law and religious violence by studying the memorialisation of the 2002 Gujarat pogrom postcolonial India's most litigated and mediatized event of anti Muslim mass violence. By reading judgments and films on the pogrom through a novel interpretive framework the book argues that the shared narrative of law and cinema engenders ways of remembering the pogrom in which the rationality of secular law offers a resolution to the irrationality of religious violence. In the public's collective memory the force of this rationality simultaneously condemns and normalises violence against Muslims while exonerating secular law from its role in enabling the pogrom thus keeping the violent legal order against India's Muslim citizens intact. The book contends that in foregrounding law's aesthetic dimensions we see the discursive ways in which secular law organizes violence and presents itself as the panacea for that very violence.
