real threats that America faces as a result of its failure to confront tough decisions Debbie conveys a vision of an America that has learned hard lessons from its recent past an America galvanized by a renewed sense of purpose for applying that wisdom through forward thinking policies on education civil rights and foreign policy She describes how she will fight to overcome the legislative obstacles that inhibit progress and she calls upon fair minded Americans to lend their own strengths to securing a better tomorrow for the next generation **Florida Administrative Register**, 2008-12 **Mathematics and Multi-Ethnic Students** Yvelyne Germain- Mc Carthy, Katharine Owens, 2013-10-11 This book puts a spotlight on the practices of teachers across the nation who have implemented effective mathematics instruction for students of different ethnicities Among the ethnic groups represented are African Americans Latinos Native Americans Haitians Arab Americans and Euro Americans The Politics of African-American Education Kenneth J. Meier, Amanda Rutherford, 2016-08-22 Based on the 1 800 largest school districts in the United States over a decade The Politics of African American Education documents the status of African American education and the major role that partisanship plays The book brings together the most comprehensive database on minority education to date that centers around three arguments First partisanship permeates African American education it affects who is elected to the school board the racial composition of school administrators and teachers and the access of African American students to quality education Second African American representation matters The effectiveness of African American representation however is enhanced in Democratic districts while representation in Republican districts has little influence Third political structures matter but they are not determinative Two different structures election rules and the independent school district create the rules of the game in US education politics and policy but do not limit others from using those rules to change the outcome Language, Literacy, and Pedagogy in Postindustrial Societies Paul C. Mocombe, Carol Tomlin, 2013-01-17 In postindustrial economies such as the United States and Great Britain the black white achievement gap is perpetuated by an emphasis on language and language skills with which black American and black British Caribbean youths often struggle This work analyzes the nature of educational pedagogy in the contemporary capitalist world system under American hegemony Mocombe and Tomlin interpret the role of education as an institutional or ideological apparatus for capitalist domination and examine the sociolinguistic means or pedagogies by which global and local social actors are educated within the capitalist world system to serve the needs of capital i e capital accumulation Two specific case studies one in the United States and one in the United Kingdom are utilized to demonstrate how contemporary educational emphasis on language and literacy parallels the organization of work and contributes to the debate on academic underachievement of black students vis a vis their white and Asian counterparts
