Psychiatric Consultation in Long-Term Care Abhilash K. Desai, George T. Grossberg, 2010-10-18. Studies show that residents of nursing homes and assisted living facilities are at a substantial risk of having psychiatric disorders. This practical volume provides much needed clinical guidance for the prevention and appropriate treatment of mental illness in long term care settings. Abhilash K. Desai and George T. Grossberg offer a basic framework for a humanistic team based approach to meeting the needs of elder persons with mental disorders in long term care facilities. Early chapters cover the demographics of residents, the epidemiology of their psychiatric symptoms, and the assessment process. Subsequent chapters focus on major disorders including dementia, delirium, depression, psychosis, and anxiety. The authors discuss end of life issues and treatments and offer suggestions for improving care. Throughout, they highlight the importance of the relationship between staff and residents. Emphasizing creative engagement and hands on care, and featuring clinical vignettes and practical tips, this optimistic volume reinforces the potential for nursing homes and assisted living facilities to be communities where residents thrive. **Mom**

Has Alzheimer's Nancy J. Day, 2023-11-20. This is a story about my mom's journey with Alzheimer's and my role as a caregiver. Although I graduated from nursing school and became a nurse practitioner, nothing prepared me for this role. We had many challenges and struggles along the way. Not just my mom, but also me. I have written the story, but also have added special sections for caregivers to learn along the way. It offers tips on providing care for various issues such as behavior issues, sleeping issues, eating problems, depression, taking care of bed bound parents, etc., and also taking care of yourself while caregiving. Caregiving is very hard work. Women who care for Alzheimer's patients are at an increased risk for developing Alzheimer's themselves. Two thirds of Alzheimer's patients are women. If a wife's husband gets Alzheimer's and she takes care of him, she is at a six times greater risk to develop Alzheimer's herself. I have also included resources for caregivers to find help.
