Architecture and Identity Peter Herrle, Erik Wegerhoff, 2008 This book brings together complex fields of knowledge and globally splintered discourses on a subject that is experienced not only by scholars but in the everyday lives of people around the world There is a common complaint about the loss of identity which to a substantial degree is being associated with the built environment in cities and specifically with their architecture Architecture and Identity takes a global multidisciplinary look on how identities in contemporary architecture are constructed The general hypothesis underlying this book is that in a globalized world identity in architecture cannot be easily derived from distinct indigenous patterns The book presents forty contributions from various disciplines aiming to destroy the myth of an inheritable or otherwise prefabricated identity Some authors dismantle constructs of identity that have long been considered as solid and unbreakable while others meticulously unravel the construction process of identities in Iberia and the Americas John Michael Francis, 2005-11-21 This comprehensive encyclopedia covers the reciprocal effects that the politics foreign policy and culture of Spain Portugal and the American nations have had on one another since the time of Columbus From the discovery of Newfoundland and

Labrador by Portuguese explorer Gaspar Corte Real in 1501 to the phenomenal Hollywood careers of Spanish movie stars such as Antonio Banderas and Penelope Cruz Iberia and the Americas traces 500 years of Iberian influence on the Americas and vice versa Featuring six introductory essays and a chronology of key events this three volume encyclopedia examines more than five centuries of transatlantic encounters Students of a wide range of disciplines as well as the lay reader will appreciate this exhaustive survey which traces Spanish and Portuguese influence throughout the Americas and highlights how Iberian cultures have in turn been enriched by the diverse cultures of the Americas
