World Class Contracting Gregory Garrett:

World Class Contracting Gregory A. Garrett, 2015 Unleash the power of outsourcing with this hard hitting concise resource for contract management In today s highly specialized business world many organizations are outsourcing to strategic partners in an effort to cut costs while maintaining good customer relations Because their reputation is on the line these companies must carefully manage partnership agreements e procurement solutions and integrated supply chains to meet the exacting expectations of customers A strong contract management program is paramount to companies that outsource paving the way to stronger and more efficient business relationships that enhance rather than reduce the bottom line World Class Contracting can help you gain a thorough understanding of the contracting process Whether you are buying or selling contracts this book will prove an invaluable desktop resource This new Sixth Edition is fully updated to reflect recent changes in laws regulations and business practices In addition to significant revisions to existing material the text contains two entirely new chapters on unauthorized commitments and constructive changes and creating a world class contracting organization

Managing Contracts - Project Controls Planning Planet, The Managing Contracts Module is to introduce those tools techniques and methodologies for managing contracts that have been identified as being best tested and proven practices which have been found to work on most projects most of the time provide a logical or rational sequence showing when those tools or techniques would normally and customarily be used and in selected instances show how to use those tools techniques and or where to find additional information on how to use or apply them

Project Procurement Management Quentin W. Fleming, 2019-01-28 Not all project procurements are the same Unless the project carefully makes an assessment of the items it will make versus the items it will buy and then adequately plans for these purchases the risks of performance will increase Project procurements are simply sub projects which need to be managed well not blindly delegated to an independent organization to buy for the project Certain procurements major complexity developments creating something new which does not exist according to the project s unique specification must be managed by the project team and supported by the professional procurement organization The project s team leader must assume the management responsibility This book zeroes in on the effective management of that portion of the project which will be performed by another organization It focuses on the procurement of scope from an organization outside of the project Often the success or failure of a project is dependent on how well the project can plan define solicit authorize and manage this external relationship This book has been updated to be consistent with Chapter 12 of the Fourth Edition of the PMBOK Guide released by PMI in December 2008
