The All-Day Kindergarten and Pre-K Curriculum Doris Pronin Fromberg, 2012-03-22

Grounded in theory and research, *The All Day Kindergarten and Pre K Curriculum* provides an activity-based and classroom-proven curriculum for educators to consider as they plan and interact with pre-K and kindergarten children. Allowing young children the opportunities to become independent, caring, critical thinkers who feel comfortable asking questions and exploring possible solutions, the Dynamic Themes Curriculum offers children the skills they need for responsible citizenship and academic progress. This book describes a culturally sensitive pre-K and kindergarten curriculum in the context of literacy, technology, mathematics, social studies, science, the arts, and play, and also discusses how to use the seven integrated conditions for learning to meet and exceed content learning standards, how to organize for differentiated instruction, and to integrate multiple forms of assessment. How to teach literacy tools and skills in fresh ways, how to work with families, colleagues, and community. Building off of author Doris Fromberg's groundbreaking earlier work, *The All Day Kindergarten and Pre K Curriculum* presents a practical curriculum centering on how young children develop meanings. This is a fantastic resource for pre and in-service early childhood teachers, administrators, and scholars. *Material Culture from Prehistoric Virginia* William Jack Hranicky, Wm Jack Hranicky Rpa, 2011

Volume 1 contains artifact listings from A through L. Volume 2 contains the remainder of the alphabetical listings. These publications contain over 10,000 prehistoric artifacts, mainly from Virginia, but the publication covers the eastern U.S. The set starts with Pre-Clovis and goes through Woodland times, with some Indian ethnography and rock art. Each volume is indexed, contains references, has charts and graphs, drawings, photographs, artifact dates, and artifact descriptions. These volumes contain artifacts that have never appeared in the archaeological literature. From beginners to experienced archaeologists, they offer a complete library for the American Indian culture and experience. DHEW Publication No. (OE)., 1972 The Routledge Companion to Race in Early Modern Artistic, Material, and Visual Production Nicholas R. Jones, Christina H. Lee, Dominique E. Polanco, 2025-05-30 This companion analyzes frames and provokes race in insightful ways that center non-white communities' artistic and visual expression in the early modern period rather than presenting the bias of European artistic and visual depictions of the colonization, enslavement, and subordination of People of Color. The organization of the book moves chronologically, taking a conceptual and thematic framework. This collection provides a spectrum of object-based case studies of artistic production, objects, and object types from six continents between the 1400s and 1800s. Contributions take an art historical approach characterized by a close analysis of form, function, and meaning, with a particular focus on questions of cross-cultural dialog and provenance. Additionally, there is an emphasis on material culture. The book will interest scholars working in African diaspora studies, art history, visual culture, material culture, Indigenous studies, Renaissance studies, musicology, early modern studies, decolonial studies, and race and racism studies.
