Worlding Multiculturalisms Daniel P. S. Goh,2014-11-20 *Worlding multiculturalisms* are practices that infuse our arbitrary cultural lives with new things from other cultures in poetic ways to enable us to dwell and be at home with the complexity of the world In the context of the crisis of multiculturalism in the West and the growing obsolescence of state based multiculturalism in the postcolonial world this book offers examples of new practices of worlding multiculturalisms that go beyond issues of immigration integration and identity Contrasting Western and Asian notions of multiculturalism this book does not focus on state issues but rather highlights manifestations of cultural exchange The chapters draw on cultural studies approaches to document instances of worlding multiculturalisms that bring Asian cultures into conflict dialogue and settlement with each other Instances include an Asian American return novel set in Penang the cultural productions and street performances of democracy marches in Malaysia the campaigns to reclaim public spaces and citizenship rights by migrant domestic workers in Hong Kong the imaginary vistas opened up by Japanese popular culture consumed throughout Asia the localisations of casino complexes in Macau and a shopping mall in Seoul and an old municipal cemetery being defended from urban redevelopment in Singapore Rather than merely globalizing forms of political diversity these are instances with the potential to transform social relations and the very terms of cultural exchange *Worlding Multiculturalisms* offers a truly interdisciplinary examination of multiculturalism in action As such it will appeal to students and scholars of cultural studies Asian studies Asian culture and society cultural anthropology and sociology and political sociology

Urban Utopias

Tereza Kuldova,Mathew A. Varghese,2017-03-09 This book brings anthropologists and critical theorists together in order to investigate utopian visions of the future in the neoliberal cities of India and Sri Lanka Arguing for the priority of materiality in any analysis of contemporary ideology the authors explore urban construction projects special economic zones fashion ramps films archaeological excavations and various queer spaces In the process they reveal how diverse co existing utopian visions are entangled with local politics and global capital and show how these utopian visions are at once driven by visions of excess and by increasing expulsions It s a dystopia already in the

making one marred by land grabs and forced evictions rising inequality and the loss of urbanity and civility **The Making of Heritage** Camila Del Marmol, Marc Morell, Jasper Chalcraft, 2014-11-20 This volume explores the process of heritage making and its relation to the production of touristic places examining several case studies around the world Most existing literature on heritage and tourism centers either on its managerial aspects the tourist experience or issues related to inequality and identity politics This volume instead establishes theoretical links between analyses of heritage and the production and reproduction of places in the context of the global tourist trade The approach adopted here is to explore the production of heritage as a complex process shaped by local and global discourses that can have a deep impact on several policies and legislations Heritage itself has now become not only a global discourse but also a global practice which may eventually lead to the use of heritage as a field for hegemony From these perspectives heritage making may be incorporated in the world economy mainly through the global tourism trade The chapters in this book stress the need for identifying the intrinsic political implications of these processes relocating their study in political economic and social settings Combined with a diversified set of theoretical approaches and research methods guided by a common thematic rationale *The Making of Heritage* is at the forefront of current debates about heritage **Traditional Dwellings and Settlements Working Paper Series**, 2012 **Environment & Planning**, 2012 *Southeast Asia's Modern Architecture* Jiat-Hwee Chang, Imran bin Tajudeen, 2019 What is the modern in Southeast Asia's architecture and how do we approach its study critically This pathbreaking multidisciplinary volume is the first critical survey of Southeast Asia's modern architecture It looks at the challenges of studying this complex history through the conceptual frameworks of translation epistemology and power Challenging Eurocentric ideas and architectural nomenclature the authors examine the development of modern architecture in Indonesia Malaysia Myanmar the Philippines Singapore Thailand and Vietnam with a focus on selective translation and strategic appropriation of imported ideas and practices by local architects and builders The book transforms our understandings of the region's modern architecture by moving beyond a consideration of architecture as an aesthetic artifact and instead examining its entanglement with different dynamics of power **Figures of Southeast Asian Modernity** Joshua Barker, Erik Harms, Johan A. Lindquist, 2014 This book is an innovative ethnographic work aimed at students and others interested in contemporary Southeast Asia Its made up of short essays or portraits of figures that populate the social and cultural world of contemporary Southeast Asia figure **New Geographies** Daniel Daou, Pablo Pérez-Ramos, 2016 As a metaphor the island has been a fecund source of inspiration across many domains Yet the concept seems to contradict trends toward interconnectedness in the geographic and design fields An atlas of islands *New Geographies* 8 explores the new limits of islandness and gathers examples to reassert its relevance for design disciplines **Informal Market Worlds** Peter Mörténböck, Helge Mooshammer, Teddy Cruz, 2015 The essays in the reader debate the scope of informality for generating economic social and political change From discussing the conceptual challenges behind the development of a new political

economy based on the philosophical legal and social architecture of other markets to exploring how changing global relations are already initiating new forms of urban practice these analyses provide a thorough understanding of what is at stake in the new geography of Informal Market Worlds With contributions by Teddy Cruz Keith Hart Jiang Jun Lawrence Liang MAP Office Vyjayanthi Rao Ananya Roy Saskia Sassen AbdouMaliq Simone Gayatri Chakravorty Spivak Ignacio Valero Matias Viegner and others The accompanying atlas brings together more than 80 case studies on the spatial and visual culture of informal markets from around the world

Religious Pluralism and the City Helmuth Berking, Silke Steets, Jochen Schwenk, 2018-04-05 Religious Pluralism and the City challenges the notion that the city is a secular place and calls for an analysis of how religion and the city are intertwined It is the first book to analyze the explanatory value of a number of typologies already in use around this topic from holy city to secular city from fundamentalist to postsecular city By intertwining the city and religion urban theory and theories of religion this is the first book to provide an international and interdisciplinary analysis of post secular urbanism The book argues that given the rise of religiously inspired violence and the increasing significance of charismatic Christianity Islam and other spiritual traditions the master narrative that modern societies are secular societies has lost its empirical plausibility Instead we are seeing the pluralization of religion the co existence of different religious worldviews and the simultaneity of secular and religious institutions that shape everyday life These particular constellations of religious pluralism are above all played out in cities Including contributions from Peter L Berger and Nezar Alsayyad this book conceptually and empirically revokes the dissolution between city and religion to unveil its intimate relationship and offers an alternative view on the quotidian state of the global urban condition
