Seven Myths of the Crusades Alfred J. Andrea, Andrew Holt, 2015-08-21 Seven Myths of the Crusades rebuttal of the persistent and multifarious misconceptions associated with topics including the First Crusade anti Judaism and the Crusades the crusader states the Children s Crusade the Templars and past and present Islamic Christian relations proves once and for all that real history is far more fascinating than conspiracy theories pseudo history and myth mongering This book is a powerful witness to the dangers of the misappropriation and misinterpretation of the past and the false parallels so often drawn between the crusades and later historical events ranging from nineteenth century colonialism to the protest movements of the 1960s to the events of 9 11 This volume s authors have venerable track records in teaching and researching the crusading movement and anyone curious about the crusades would do well to start here Jessalynn Bird Dominican University co Editor of Crusade and Christendom

The Greatest Story Ever Forged (Curse of the Christ Myth) David Hernandez, 2009-09 Is God fact or fiction This is the question that has been the subject of debate for millennia oftentimes leading to violence as we have seen in the countless religious wars throughout the course of history including the Islamic and Christian wars of today The Greatest Story Ever Forged discusses this question and outlines the fabrications giving birth to these monotheistic religions their early developments and how they have tyrannized the West and Middle East for these many centuries Though there have been many defenders of the faith David Hernandez shows how these religions have infinitely caused more damage to man than any good they have ever been credited for having done This is what he calls the Curse of the Christ Myth which derives from the big lie as propounded by the inventors of the Christ Myth who battled as fiercely among themselves as they did against their detractors or non believers These include everyone from the Jews to the Pagans to the Gnostics to the heretics and any form of infidels in an effort to establish their true religions

Strategic Inventions of the Crusades Andrew Coddington, 2016-12-15 During the Middle Ages many Christians in Europe set off on crusades to the Middle East The conflicts that occurred as a result of these holy pilgrimages created deep divisions between the two cultures However along with conflict arose new techniques on the battlefield including innovations in weaponry and fighting tactics This book

explores the history of the crusades and the inventions that manifested during this time *Historical Dictionary of the Crusades* Corliss K. Slack, 2013-05-09 The crusades were among the longest and most bitter wars in human history and consisted of no less than seven major expeditions from Western Europe from the late 11th to the early 14th centuries for the purpose of wresting Jerusalem and the Holy Land from the control of the Muslims In the end it was the Muslims who won and the Christians who suffered a major setback and the Middle East remained firmly in Muslim hands This was one of the worst clashes between different religions and civilizations and for long it was largely forgotten or brushed over That is no longer the case with many Muslims regarding Western interference in the region as a repeat of the crusades while launching their own jihads So while an old conflict it is still with us today Even at the time it was very hard to understand the causes and outcome of the crusades and that remains a problem today This *Historical Dictionary of the Crusades* cannot claim to have resolved it but it most definitely does make the situation easier to understand The introduction provides an overview tracing the crusades from one expedition to the next and assessing their impact The actual flow of events is far easier to follow thanks to the chronology And maps help to trace the events geographically The entries and there are more than 300 of them in this second edition look more closely at notable figures including Pope Gregory VII Richard the lionhearted and Saladin as well as important places Jerusalem Constantinople and others events battles and sieges as well as the use of weapons and armor The bibliography points to further reading
