Disabilities Peter Westwood, 2009-08-01 This book provides a concise overview of a wide range of disabilities that have an impact on students learning and development Main topics include intellectual disability autism Asperger s syndrome other pervasive developmental disorders language disorders physical and health impairments vision and hearing impairments and emotional and behavioural disorders It describes clearly the main features of each disability the priority needs of individuals with the disability and effective methods for teaching these students [What Teachers Need to Know about Learning Difficulties](#) Peter Westwood, 2008 Learning Difficulties draws on international research about learning difficulties to present a clear picture of the issues involved It focuses on early identification so that intervention can prevent or minimise the negative outcomes of persistent failure and explains how teachers can address problems effectively Problems of socialisation

and behaviour are discussed and brief coverage given to students specific difficulties with reading and mathematics A comprehensive range of links to additional sources of information will help teachers find positive solutions for their students

What Teachers Need to Know About Differentiated Instruction Peter Westwood,2016-02-01 The What Teachers Need to Know About series aims to refresh and expand basic teaching knowledge and classroom experience Books in the series provide essential information about a range of subjects necessary for today s teachers to do their jobs effectively These books are short easy to use guides to the fundamentals of a subject with clear reference to other more comprehensive sources of information Other titles in the series include Teaching Methods Numeracy Spelling Learning Difficulties Reading and Writing Difficulties Personal Wellbeing Social and Emotional Development Students with Disabilities and Assessment and Reporting

What Teachers Need to Know Matthew Bruce Etherington,2017-03-31 Every generation has sought to make teaching and learning more inclusive and equitable but pesky questions always remain such as how can teaching and learning be conducted in ways that satisfies and respects everyone What are the parameters of an inclusive pedagogy Who defines its principles How should these principles be taught and by whom And by what authority shall they be grounded These types of thorny questions occupy the essence of educators and the authors of this book This book is about teachers educators and topics related to inclusion Teachers and educators have a lot to know therefore the topics are broad and relevant to the times What should teachers know about special needs religion and spirituality Aboriginality the environment tolerance and school choice Although teachers have knowledge of their subject matter knowledge alone is not sufficient They must know and understand how people learn A teacher must also care deeply about who they teach And this teacher knowledge grows and changes over time as teachers become more experienced informed skilled and wiser At the same time no teacher preparation will be sufficient because there will always be discussions that were never had and knowledge that was never shared Time has its costs and there is only so much a formal education can prepare someone This book helps to satisfy a cavity in learning for teachers and educators in general

What Teachers Need to Know about Reading and Writing Difficulties Peter S. Westwood,Peter Westwood,2008 Literacy skills are fundamental to all areas of learning in the school curriculum but also have a profound impact on an individual s chances of finding satisfying work in the years beyond school This book draws on the latest research from around the world to explain some of the causes of literacy problems and gives practical advice on methods to support students with their own difficulties Details of additional resources and online links are provided to assist teachers who wish to pursue some of the issues in greater depth

100 Ideas for Secondary Teachers: Supporting Students with Numeracy Difficulties Patricia Babbie,Sue Dillon,2019-09-05 No matter what you teach there is a 100 Ideas title for you The 100 Ideas series offers teachers practical easy to implement strategies and activities for the classroom Each author is an expert in their field and is passionate about sharing best practice with their peers Each title includes at least ten additional extra creative Bonus Ideas that won t fail to inspire and engage all learners _____

Dyscalculia experts Patricia Babbie and Sue Dillon present 100 ideas to help students with numeracy difficulties grasp the core skills required in the secondary curriculum not just in maths but in other subjects including science design and technology computing and geography Around 25 per cent of secondary school students have severe numeracy difficulties These students are often anxious and fearful about using maths arising from a repeated failure to learn This impacts their overall attainment Patricia and Sue show how numeracy difficulties can be overcome using multi sensory teaching and helping students with their study skills revision and exam techniques This dip in and out book provides activities and games to encourage students to explore numerical ideas and discover underlying patterns across the secondary curriculum These ideas help to develop an understanding of maths concepts and see their relevance in everyday life 100 Ideas for Secondary Teachers Supporting Students with Numeracy Difficulties contains adaptable ideas that are relevant across the curriculum It will help build confidence in learners making it a must have resource for all schools

Numeracy in Authentic Contexts

Maura Sellars, 2017-10-25 This book is based on the notion that there are many ways in which mathematics learning can be achieved for students and that not all of them are focused on the mathematics classroom It explores the foundational numeracy principles of the non mathematical subject areas and aligns these to the Australian numeracy learning continuum It demonstrates in detail the extent to which numeracy competencies underpin successful learning in all the subject areas of the curricula It validates a focus of developing numeracy competencies through learning in the arts science and other discipline areas with which school students to engage with in order develop holistically but which are not subjected to national assessment practices It is developed around the notion of praxis putting theory into practice in order to respond to the urgent need for students to be supported in their efforts to increase their numeracy capabilities in a world where extensive amounts of new information are often presented in graphical or data based formats Additionally it offers perspectives on developing all students capacities to become numerate in school contexts and presents inclusive differentiated lesson examples as an alternative way of exploring numeracy in the context of teaching and learning in real world classroom contexts

Delve into the emotional tapestry woven by Crafted by in Experience **What Teachers Need To Know About Numeracy** .
