Wheels Of Misfortune Rise And Fall Of The British Motor Industry:

The British Motor Industry, 1945-94 Timothy Whisler, 1999-05-06 A fascinating and well researched look at the British motor industry which will appeal to both academic readers and practitioners alike Why are there now no major car manufacturers in Britain Whisler considers this and the surrounding issues making valuable comparisons with overseas manufacturers operating both in the UK and abroad which provide us with additional interest and insight Based upon careful use of company archives this book covers in particular the issues of product development quality design and range ensuring that The British Motor Industry is destined to make a distinctive contribution to our understanding of the performance of UK manufacturers

The Rise and Decline of the British Motor Industry Roy A. Church, 1995-09-14 A concise 1995 review of the strengths and weaknesses of the British motor industry during the one hundred years since its foundation

Wheels of Misfortune Jonathan Wood, 1988 An investigation into the successes and failures of the British car industry over the last century The author examines the role of the management trade unions and government chronicling specific examples

Organizational Communication and Management Andrzej Kozminski, Donald P. Cushman, 1993-01-07 Polish and American scholars with contributions from Western Europe Japan and Africa discuss issues of the communication and management demands on companies faced with dealing in a global economy The main topics of the 14 papers from a June 1990 conference near Plock Poland are the economic and social reasons for the sudden decline of communism and the prospects for the region and the threat posed to the preservation of national identity by globalism and regionalism Paper edition unseen 17 95

The European Rescue of the Nation-state Alan S. Milward, 2000 Newly revised and updated this second edition is the classic economic and political account of the origins of the European Community book offers a challenging interpretation of the history of the western European state and European integration

Between Imitation and Innovation Robert Boyer, Elsie Charron, Ulrich Jurgens, Steven Tolliday, 1998-11-19 Recent years have seen intense debates among management and academics on the rise of lean production and Japanization Some authors have stressed the universal impact of new forms of work organization and best practice while others have questioned the limits of convergence stressed the weight of national contexts or societal effects or highlighted the evolutionary effects of unpredictability in the external environment The international automobile industry has been a focus for much of this debate and this book written by a team of leading international researchers in the field uses this industry to examine in detail the actual practice of the transfer and adaptation of productive models and the trajectories of innovation compromise and failure that can result Case studies cover in detail the Japanese transplant experience in North America and the global experience of hybrid production systems in Europe Latin America and Asia The book contributes to theoretical discussions about the transfer adaptation or convergence of productive models In particular the authors argue that direct transplantation or imitation of these models is rarely feasible or even desirable Systems cannot be transferred without being significantly

reshaped Instead the book focuses on the process of hybridization the complex interaction of productive models with national and societal effects Hybridization it is argued is inevitable But this should be seen not simply as a process of compromise and retreat but also as an important dynamic of innovation and learning This book is from the French based international research network GERPISA Groupe d'étude de recherche permanent sur l'industrie et les salaires de l'automobile See related titles below

Merging Traffic John A. C. Conybeare, 2004 John Conybeare examines the motivations at work behind the consolidation of the automotive industry worldwide into six giant conglomerates He shows that the publicly anticipated goals are not always achieved and reveals that the real reasons behind mergers are not always what they seem to be

Shaping the Future Horst Hutter, 2006-01-01 Shaping the Future maps out the ascetic practices of a Nietzschean way of life Hutter argues that Nietzsche's doctrines are attempts and temptations that aim to provoke his free spirited readers into changing themselves by putting philosophy into practice in their lives

Canada and the End of Empire Phillip Buckner, 2013-12-01 Sir John Seeley once wrote that the British Empire was acquired in a fit of absence of mind Whatever the truth of this comment it is certainly arguable that the Empire was dismantled in such a fit This collection deals with a neglected subject in post Confederation Canadian history the implications to Canada and Canadians of British decolonization and the end of empire Canada and the End of Empire looks at Canadian diplomatic relations with the United Kingdom and the United States the Suez crisis the changing economic relationship with Great Britain in the 1950s and 1960s the role of educational and cultural institutions in maintaining the British connection the royal tour of 1959 the decision to adopt a new flag in 1964 the efforts to find a formula for repatriating the constitution the Canadianization of the Royal Canadian Navy and the attitude of First Nations to the changed nature of the Anglo Canadian relationship Historians in Commonwealth countries tend to view the end of British rule from a nationalist perspective Canada and the End of Empire challenges this view and demonstrates the centrality of imperial history in Canadian historiography An important addition to the growing canon of empire studies and imperial history this book will be of interest to historians of the Commonwealth and to scholars and students interested in the relationship between colonialism and nationalism

The Rebirth of the West Peter Duignan, Lewis H. Gann, 1996 The years following World War II witnessed perhaps the greatest success story in Western history the economic and political recovery of European democracies that had been devastated by the cataclysmic war Peter Duignan and L H Gann convincingly demonstrate that the deep involvement of the United States was a key factor in this success The Rebirth of the West is a broad narrative analysis of every important aspect of Western society during this formative period political economic social cultural and scientific In addition to providing an interpretive synthesis of the vast literature on the subject the authors make an important and original contribution to both the historical record of this period and current debates over the future of Europe
