When A Child Dies From Drugs Practical Help For Parents In Bereavement:

When a Child Dies from Drugs Pat Wittberger,2004-08-04 When experiencing the ultimate tragedy of a child's death from drugs parents find themselves isolated in a fathomless dark void wondering whether they will ever resurface into the real world again This book is written by parents who have been there From the first learning of their daughter's passing through forming an outreach program Jenny's Journey that seeks to deter other young people from a similar end to establishing a grief recovery program they speak to all the emotions that will be familiar to those parents in similar circumstances The book offers strength practical advice and aid in grief recovery to help parents get through the greatest disaster of their lives page 4 of cover

Faded Trish Avery,2019-07-02 *Faded* The Circle of Life to the Soul is journey through death taking away fear and mystery Trish takes you on the journey through the circle of life death and rebirth telling real stories of people who have remembered the journey going into the life between lives where we plan our next life She takes you into the afterlife to get a glimpse of the soul and what it is like when we journey onto our next adventure She tells you heart touching stories that relate to these journeys in the end bringing death into the light to take its place in the circle of life *Life and Loss* Linda Goldman,2013-11-20 Many clinicians recognize that denying or ignoring grief issues in children leaves them feeling alone and that acknowledging loss is crucial part of a child's healthy development Really dealing with loss in productive ways however is sometimes easier said than done For decades *Life and Loss* has been the book clinicians have relied on for a full and nuanced presentation of the many issues with which grieving children grapple as well as an honest exploration of the interrelationship between unresolved grief educational success and responsible citizenry The third edition of *Life and Loss* brings this exploration firmly into the twenty first century and makes a convincing case that children's grief is no longer restricted only to loss identified children Children's grief is now endemic it is global *Life and Loss* is not just the book clinicians need to understand grief in the twenty first century it's the book they need to work with it in constructive ways

Nursing 11th Edition continues to leverage its trademark developmental approach as it equips readers with the very latest research and guidelines for treating children today. The text utilizes a highly readable writing style and encourages a whole body approach beginning with child development and health promotion to better understand the later chapters on specific health problems. This new eleventh edition also features Next Generation NCLEX style case studies and questions, a new chapter covering all systems cancers, additional case studies within the nursing care plans, and updated and expanded evidence based content throughout to best reflect the latest standards and trends impacting pediatric nursing care today. Developmental approach clearly identifies developmental tasks and influences at each stage of a child's growth. Emphasis on wellness features health promotion chapters for each developmental stage of childhood. Critical thinking case studies with answers are found throughout the text. Quality patient outcomes are highlighted within nursing management discussions for major diseases and disorders. Drug alerts draw attention to potential safety issues reflecting QSEN safety initiative. Family focus includes a separate family chapter as well as family content and Family Centered Care boxes integrated throughout the text. Community Focus boxes provide resources and guidance on caring for children outside the clinical setting. Evidence Based Practice boxes focus attention on the application of research and critical thought processes to support and guide the outcomes of nursing care. Chapter on complementary alternative therapy covers timely topics to aid in providing complete comprehensive care. Nursing care plans provide a model for planning patient care and include rationales that provide the why. Research Focus boxes highlight current studies that impact pediatric nursing today. Cultural content and Cultural Considerations boxes are integrated throughout the text to draw attention to customs and beliefs of different cultures that influence childcare. Atraumatic Care boxes contain techniques for care that minimize pain, discomfort or stress. Nursing tips offer helpful hints and practical clinical information of a non emergency nature. Nursing alerts feature critical information that MUST BE considered in providing care. Emergency Treatment sections provide a quick reference in critical situations. Nursing care guidelines provide clear step by step instructions for performing specific skills or procedures.

Wong's Nursing Care of Infants and Children - E-Book Marilyn J. Hockenberry, David Wilson, 2014-08-28. The leading text in pediatric nursing, Wong's Nursing Care of Infants and Children takes a unique, easy to understand developmental approach to describe the care of children at each age and stage of development. Childhood diseases and disorders are organized by age groups and body systems and described through the nursing process framework. This edition includes updates on topics such as the new CPR guidelines, immunizations and pain assessment and management. Written by pediatric experts Dr. Marilyn Hockenberry and David Wilson, each with nearly 30 years of hands on experience, this bestseller provides an evidence based clinical perspective that shows how the quality of nursing care can impact quality patient outcomes. A good neonatal and paediatric reference and textbook. Reviewed by Jo Wilson on behalf of Nursing Times, March 2015.
