When Buddha Was Elephant Animal:

Sacred Animals of India Nanditha Krishna, 2014-05-01 Animals are worshipped in India in many ways as deities the elephant god Ganesha and the monkey god Hanuman as avatars like Vishnu's fish tortoise and boar forms and as vahanas the swan bull lion and tiger were all vehicles of major deities and are thus sacred by association Some animals like the snake are worshipped out of fear Birds such as the crow are associated with the abode of the dead or the souls of ancestors while the cow's sanctity may derive from its economic value There are also hero animals such as the vanaras and animals which were totemic symbols of tribes that were assimilated into Vedic Hinduism *Sacred Animals of India* draws on the ancient religious traditions of India Hinduism Buddhism and Jainism to explore the customs and practices that engendered the veneration of animals in India This book also examines the traditions that gave animals in India protection and is a reminder of the role of animal species in the earth's biodiversity

A History of the World in 100 Animals Simon Barnes, 2022-05-03 Fully illustrated in color a fascinating exploration of the one hundred animals that have had the most profound influence on humanity throughout the ages We are not alone We are not alone on the planet We are not alone in the countryside We are not alone in cities We are not alone in our homes We are humans and we love the idea of our uniqueness But the fact is that we humans are as much members of the animal kingdom as the cats and dogs we surround ourselves with the cows and the fish we eat and the bees who pollinate so many of our food plants In *The History of the World in 100 Animals* award winning author Simon Barnes selects the one hundred animals who have had the greatest impact on humanity and on whom humanity has had the greatest effect He shows how we have domesticated animals for food and for transport and how animals powered agriculture making civilisation possible A species of flea came close to destroying human civilisation in Europe while the slaughter of a species of bovines was used to create one civilisation and destroy another He explains how pigeons made possible the biggest single breakthrough in the history of human thought In short he charts the close relationship between humans and animals finding examples from around the planet that bring the story of life on earth vividly to life with great insight and understanding The heresy of human uniqueness has led us across the millennia along the path of destruction This book beautifully illustrated throughout helps us to understand our place in the world better so that we might do a better job of looking after it That might save the polar bears the modern emblem of impending loss and destruction It might even save ourselves

Animal Modernity: Jumbo the Elephant and the Human Dilemma Susan Nance, 2015-10-08 The concept of modernity is central to many disciplines but what is modernity to animals Susan Nance answers this question through a radical reinterpretation of the life of Jumbo the elephant In the 1880s consumers the media zoos circuses and taxidermists and unknowingly Jumbo himself transformed the elephant from an orphan of the global ivory trade and zoo captive into a distracting international celebrity Citizens on two continents imaged Jumbo as a sentient individual and pet but were aghast when he died in an industrial accident and his remains were absorbed by the taxidermic and animal rendering industries

reserved for anonymous animals The case of Jumbo exposed the human dilemma of modern living wherein people celebrated individual animals to cope or distract themselves from the wholesale slaughter of animals required by modern consumerism

Animals and Plants in Chinese Religions and Science Huaiyu Chen, 2023-03-14 This book is a unique transdisciplinary study on animals and plants in medieval Chinese religions and science especially in such a critical era of environmental crisis today In recent years environment historians have written intensively on China yet the study of animals and plants in medieval China was less developed not much about the role of religions more precisely This book aims to bridge the gaps between religious studies and environmental studies between the history of science and religious studies and between animal studies and plant studies It also deals with folklores and other literary sources for examining the changing images of animals in the psychological and imaginative experience which are often overlooked in the conventional scholarship This book addresses big issues such as how religious agents responded to the challenges about animals and plants as material culture in the mundane world and how the religious writers developed their different discourse about animals and plants from the state ideology and how the spiritual world and natural world mutually enriched each other in the medieval world of China

Our Dumb Animals George Thorndike Angell, 1876 *Unfortunate Destiny* Reiko Ohnuma, 2017-05-01 *Unfortunate Destiny* focuses on the roles played by nonhuman animals within the imaginative thought world of Indian Buddhism as reflected in pre modern South Asian Buddhist literature These roles are multifaceted diverse and often contradictory In Buddhist doctrine and cosmology the animal rebirth is a most unfortunate destiny *durgati* won through negative karma and characterized by a lack of intelligence moral agency and spiritual potential In stories about the Buddha's previous lives on the other hand we find highly anthropomorphized animals who are wise virtuous endowed with human speech and often critical of the moral shortcomings of humankind In the life story of the Buddha certain animal characters serve as doubles of the Buddha illuminating his nature through identification contrast or parallelism with an animal other Relations between human beings and animals likewise range all the way from support friendship and near equality to rampant exploitation cruelty and abuse Perhaps the only commonality among these various strands of thought is a persistent impulse to use animals to clarify the nature of humanity itself whether through similarity contrast or counterpoint Buddhism is a profoundly human centered religious tradition yet it relies upon a dexterous use of the animal other to help clarify the human self This book seeks to make sense of this process through a wide ranging exploration of animal imagery animal discourse and specific animal characters in South Asian Buddhist texts

Animals in Stone Alexandra van der Geer, 2008-10-31 The art history of South Asia covers a time span of roughly four and a half thousand years During this period a vast number of animal stone sculptures has been produced ranging from the pre historic period till today and covering a great variety of motifs and imagery in different regions and religious traditions Even so the number of studies devoted to these animal sculptures has remained extremely limited The present book aims at filling this knowledge gap With

this richly illustrated book the first of its kind Van der Geer offers a comparative study of the ways in which various animals have been depicted and a lucid analysis of the sculptors treatment of their models living animals The art history of sculptured animals is contextualized with a description of the use of animals as can be read from ancient texts archaeological evidence and contemporaneous culture In doing so parallels as well as differences in style or iconography are highlighted elucidating the variety of animal depictions across regions religious contexts and through time The corpus of discussed material ranges from Indus seals stupa panels and railings monumental temples from North and South India non religious palace and fort architecture to loose sculptures in museum collections Animals ,1913 Outlines of Chinese Symbolism and Art Motives Charles Alfred Speed Williams,1976-01-01 Describes historical legendary and supernatural persons animals and objects that recur as symbols in Oriental art and literature **Animal Acts** Una Chaudhuri,Holly Hughes,2014-01-28 Encounters between the species in an anthology of lively solo performances and commentary
