Introduction

The Winnipeg was one of the tragic strikes that hit Canada in 1919 since it involved many workers. It is approximated that over thirty thousand workers participated in the strike to demand their rights and freedoms from the government and the ruling class. The book *When the State Trembled* captures clearly, what transpired during the time by reporting the other side of the story concerning the Citizen's Committee of 1000.

Business autocrats and the ruling class in society formed the committee to check the influence of workers in the industrial sector. The committee was charged with the responsibility of ensuring that the poor do not access the means of production in society. Therefore, the committee had to liaise with state machineries to ensure that the status quo remains intact.

The author of this book exposes the injustices that existed in the Canadian society in early 1900s. The owners of the means of production pressurized the government to form oppressive labor laws that could later be used by the bourgeoisie to subjugate the working class. The bourgeoisie took advantage of the prevailing conditions to unleash terror to the poor.

The poor could work without pay. Furthermore, the ruling class in society utilized other means that affected the unity of workers. Workers could not rise up to the occasion to demand for their rights since the government could always support the elites. The 1919 strike was termed illegal and all participants were to face legal punishments. In the book, lawyer A.J Andrews and acting minister of Justice Arthur Meighen were the representatives of the Citizens Committee of 100 and the state.

This shows that they were hired to demoralize and frustrate the activities of workers in the state. At the end, the leaders of the workers' union were prosecuted and were charged with sedition. This meant that leaders in government were aware of the dangers of labor movements as regards to governmental power and authority. In other words, the leaders were against radicalism and the teachings of Marxism, which suggested that people had to determine their own destinies.
