Renda, 2004-07-21 The U S invasion of Haiti in July 1915 marked the start of a military occupation that lasted for nineteen years and fed an American fascination with Haiti that flourished even longer Exploring the cultural dimensions of U S contact with Haiti during the occupation and its aftermath Mary Renda shows that what Americans thought and wrote about Haiti during those years contributed in crucial and unexpected ways to an emerging culture of U S imperialism At the heart of this emerging culture Renda argues was American paternalism which saw Haitians as wards of the United States She explores the ways in which diverse Americans including activists intellectuals artists missionaries marines and politicians responded to paternalist constructs shaping new versions of American culture along the way Her analysis draws on a rich record of U S discourses on Haiti including the writings of policymakers the diaries letters songs and memoirs of marines stationed in Haiti and literary works by such writers as Eugene O'Neill James Weldon Johnson Langston Hughes and Zora Neale Hurston Pathbreaking and provocative Taking Haiti illuminates the complex interplay between culture and acts of violence in the making of the American empire

Tortured Subjects Lisa Silverman, 2001-05-15 At one time in Europe there was a point to pain physical suffering could be a path to redemption This religious notion suggested that truth was lodged in the body and could be achieved through torture In Tortured Subjects Lisa Silverman tells the haunting story of how this idea became a fixed part of the French legal system during the early modern period Looking closely at the theory and practice of judicial torture in France from 1600 to 1788 the year in which it was formally abolished Silverman revisits dossiers compiled in criminal cases including transcripts of interrogations conducted under torture as well as the writings of physicians and surgeons concerned with the problem of pain records of religious confraternities diaries and letters of witnesses to public executions and the writings of torture's abolitionists and apologists She contends that torture was at the center of an epistemological crisis that forced French jurists and intellectuals to reconsider the relationship between coercion and sincerity or between free will and evidence As the philosophical consensus on which torture rested broke down and definitions of truth and pain shifted so too did the foundation of torture until by the eighteenth century it became an indefensible practice
