Step Dancing in Ireland Catherine E. Foley,2016-04-01 For many people step dancing is associated mainly with the Irish step dance stage shows Riverdance and Lord of the Dance which assisted both in promoting the dance form and in placing Ireland globally But in this book Catherine Foley illustrates that the practice and contexts of step dancing are much more complicated and fluid Tracing the trajectory of step dancing in Ireland she tells its story from roots in eighteenth century Ireland to its diverse cultural manifestations today

She examines the interrelationships between step dancing and the changing historical and cultural contexts of colonialism nationalism postcolonialism and globalization and shows that step dancing is a powerful tool of embodiment and meaning that can provoke important questions relating to culture and identity through the bodies of those who perform it Focusing on the rural European region of North Kerry in the south west of Ireland Catherine Foley examines three step dance practices one the rural Molyneaux step dance practice representing the end of a relatively long lived system of teaching by itinerant dancing masters in the region two Rinceoir na R ochta a dance school representative of the urbanized staged competition orientated practice cultivated by the cultural nationalist movement the Gaelic League established at the end of the nineteenth century and practised today both in Ireland and abroad and three the stylized commoditized folk theatrical practice of Siamsa T re the National Folk Theatre of Ireland established in North Kerry in the 1970s Written from an ethnochoreological perspective Catherine Foley provides a rich historical and ethnographic account of step dancing step dancers and cultural institutions in Ireland [Bloomsbury Encyclopedia of Popular Music of the World, Volume 11](#) David Horn,2017-10-05 See **Encyclopedia of African American History, 1896 to the Present** Paul Finkelman,2009 Alphabetically arranged entries from A to C that explores significant events major persons organizations and political and social movements in African American history from 1896 to the twenty first century **The Making of Global and Local Modernities in Melanesia** Holly Wardlow,2016-12-05 Authored by well established and respected scholars this work examines the kinds of efforts that have been made to adopt Western modernity in Melanesia and explores the reasons for their varied outcomes The contributors take the work of Professor Marshall Sahlins as a starting point assessing his theories of cultural change and of the relationship between cultural intensification and globalizing forces They acknowledge the importance of Sahlins ideas while refining extending modifying and critiquing them in light of their own first hand knowledge of Pacific island societies Also presenting one of Sahlins less widely available original essays for reference this book is an exciting contribution to serious anthropological engagement with Papua New Guinea **Towards a psychophysiological approach in physical activity, exercise, and sports, volume II** Pedro Forte,Daniel Leite Portella,Diogo Monteiro,José Eduardo Teixeira,2024-07-12 This Research Topic is the second volume of the article collection Towards a Psychophysiological Approach in Physical Activity Exercise and Sports Please see the first volume here <https://www.frontiersin.org/research-topics/39747/towards-a-psychophysiological-approach-in-physical-activity-exercise-and-sports> magazine In recent years there has been an increase in interest in mental health disorders as a result of mediatic coverage of Olympic athletes mental health struggles and also due to the COVID 19 pandemic lockdowns These phenomena helped to further exacerbate a problem already extensively present in sport and society Therefore applying a psychophysiological approach to physical activity exercise and sports research has become very popular Indeed mental fatigue and mental disorders are not only psychological in origin but also require an explanation from a psychophysiological perspective due to the effective

interconnection between the psychological and physiological dimensions Psychological variables can also influence performance and the psychophysiological system has a strong effect on the control of physical capacities Moreover pacing behaviour decision making self regulation and effort perception can also explain the role of the brain in physical activity and exercise management Thus the aim of this Research Topic is to share the impact of a psychophysiological approach in physical activity exercise and sports The goal of this Topic is to address the following Factors determining performance including technical tactical physiological cognitive and psychosocial training and competition demand training interventions and testing in sports acute and chronic effects of training in psychophysiological variables coaching in sports strength and conditioning mental health and performance recent developments within sports sciences research This Research Topic endeavors to explore at specific themes related to physiological stress and mental well being Additionally we aim to provide evidence to coaches and sports scientists highlighting the relationship between training and competition demands related to performance We also want to analyze the effects of strength and conditioning training and coaching effects acute and chronic on psychological and physiological Finally it is our intention to provide scientific literature with evidence for a relationship between movement behavior and cognition with physiological performance the psychophysiological approach

Staging Fashion Tiziana Ferrero-Regis, Marissa Lindquist, 2020-12-10 The fashion show and its spaces are sites of otherness representing everything from rebellion and excess through to political and social activism This conceptual and stylistic variety is reflected in the spaces they occupy whether they are staged in an industrial warehouse on a city street or out in the open landscape *Staging Fashion* is the first collection of essays about the presentation and staging of fashion in runway shows in the period from the 1960s to the 2010s It offers a fresh perspective on the many collaborations between artists architects and interior designers to reinforce their interdisciplinary links Fashion architecture and interiors share many elements including design history material culture aesthetics and trends The research and ideas underpinning *Staging Fashion* address how fashion and the spatial fields have collaborated in the creation of the space of the fashion show The 15 essays are written by fashion interior architecture and design scholars focusing on the presentation of fashion within the runway space from avant garde practices and collaboration with artists to the most spectacular and commercial shows of recent years from Prada to Chanel
