Transformation Of Evil And The Subterranean Spheres Of The Earth:

The Transformation of Evil Sigismund von Gleich, 2005 Written in the years right after World War II this brief book offers a powerful meditation on evil and its eventual transformation Focusing on the realm of subnature or the subterranean spheres von Gleich shows how the various layers of the Earth's interior are linked directly to the mystery of evil The author begins by summarizing the classical image of the underworld of Greek mythology He then describes the various qualities of the Earth's nine layers as elucidated by Rudolf Steiner Finally he outlines the counter impulses the forces of good that work in opposition to the nine currents of evil harbored within the Earth Although written more than fifty years ago von Gleich's thoughts are more relevant than ever today when humanity is surrounded by war violence starvation greed and the phenomena of increasingly obtrusive technology In a newly written introduction Paul V O Leary places von Gleich's work within the context of today's world

The Inner Life of the Earth Paul V. O'Leary, Christopher Bamford, Robert A. Powell, Marko Pogačnik, Rachel C. Ross, 2008-08 We need changes in our attitudes our understanding of illness our acceptance of non allopathic practitioners the economics of how we pay for health care and our entire professional medical legal system in which medical boards often act within the law to protect and defend the guild of conventional medicine under the guise of scientific proof I present a template that combines economics psychology medicine physiology and mythology It can serve as support and guidance for making the changes necessary for a new model of medicine in the twenty first century

Dr Robert J Zieve Dr Zieve presents a new paradigm for health care that shows us how to go beyond the limitations and severe deficiencies of our current sickness care system It embraces and synthesizes the emerging models of integrative medicine energy medicine and energy psychology into an effective and affordable approach to healing for everyone This guide is for both those who wish to provide a more complete form of health care for their patients and also for those individuals who are prepared to make the necessary changes in daily life in order to initiate or maintain a movement toward healing This includes understanding the daily disciplines of a healing process the deeper psychological processes of illness and the creative arts in their therapeutic roles

The Interior of the Earth Rudolf Steiner, 2013-10-15 Modern science can speak with authority regarding only a tiniest fraction of the earth's interior We have quite literally scratched just the surface of our planet Can we truly know what lies beneath our feet in the unimaginably deep depths of the earth Can the phenomenon of spiritual investigation add to this question In this comprehensive volume with notes and an introduction Rudolf Steiner's utterances on this theme have been brought together for the first time under one cover His unique overview gives a picture of the nine layers of the earth as they become visible via the research of the spiritual scientist The layers range from the familiar mineral on which we live to the innermost core which Steiner connects to human and animal powers of reproduction In between are layers such as the Mirror Earth which represents qualities of extreme evil and the Fire Earth which is connected to natural catastrophes The information Steiner conveys is never abstract or theoretical but intimately related to

the human being The Fire Earth for example is acutely affected by people's will When the human will is chaotic and untutored says Steiner it acts magnetically on this layer and disrupts it leading to volcanic eruptions He also describes other natural catastrophes such as extreme weather and earthquakes in connection to the interior of the earth and karma
